Shaneh

Part #2

First Tequfah Witness

- **NOTICE:** For those new to these studies –
- The word – **Cycle** – is used to designate one 24 hour period, Dawn to Dawn, within a week of 7.
- There are 7 - 24 hour cycles in a week.
- The word “**day**” causes too much confusion within its ambiguous inaccuracy.
i.e. Is “day” the Light Season? Is it the Night Season, or does it reference both?
- **Cycle** - effectively eliminates all this confusion. 😊

Remembering a Question:

In Power Point #9 of

The Moon! Oh, the Moon!

a question was asked with the promise
of the answer in upcoming studies.

The next two slides will be a short review.

This presentation will have a very specific
answer for a clear understanding.

A Short Introduction

Matt 23:13 Shutting up the Kingdom

- In Matt 23, **Yahusha** speaks to the multitudes in the hearing of the scribes and Pharisees.
- In verse 13 he begins to address the leaders with many “woes.”

- “But woe unto you, scribes and Pharisees, hypocrites! for **ye shut up the kingdom of heaven against men:** for ye neither go in yourselves, neither suffer ye them that are entering to go in.”

Removing the Key of Knowledge

- These leaders, who should be unlocking the meaning of **Yahuah's** word, are instead taking away the opportunity for people to know and understand it.

Luke 11:52 Woe unto you, lawyers!

For ye have taken away the key of knowledge: ye entered not in yourselves, and them that were entering in ye hindered.

- “A key is made to open a lock or door. By their false interpretation of the old testament they had taken away the true key or method of understanding it. They had hindered the people from understanding it aright... **If there is any sin of special magnitude, it is that of keeping the people in ignorance.**” (Barnes' notes)

REVIEW

A HEBREW LEXICON – BY J. PARKHURST
(1762 – USES NO MASORETIC VOWEL INFLUENCES) –

H8141 - SHANEH:

SHANEH

- I. IN KAL, - **TO ITERATE, REPEAT, DO AGAIN**, OR **A SECOND TIME**
IN NIPH – **TO BE REPEATED**
- II. AS A N. MASC. THE WORD IS FIRST APPLIED TO THE GRAND *ITERATION*
OF LIGHT AT THE FORMATION. (GEN 1:14)
ALSO ADVERBIALY, **SECONDLY, THE SECOND TIME.**
- 

QUESTION: *Do the LUNATIONS sequentially duplicate after like kind –
time after time returning to the original place of commencement?*

Answer: *No, a lunation does not sequentially repeat its pattern, not even close.*

The ETYMOLOGICAL DICTIONARY OF THE HEBREW LANGUAGE records

H8141 **SHANEH** as;

change, period of changing seasons, **to repeat, do again.**

Strong's records H8141 **SHANEH**, as having the root word of

H8138 “**SHANAH**” with the definitions of –

repeat, return, do the second time.

Remember, it is imperative to examine the root words to achieve a better foundational meaning of words.

Let's look at the root word – H8138 – Shanah – of H8141 Shaneh.

The primary root word for **SHANEH** ... It is H8138 **SHANAH**.

The verses are – **Gen 41:32** (**doubled**), 1 Sam 21:13 (changed),
1 Sam 26:8 (**second time**), **2 Sam 20:10** (**again**), 1 Kings 14:2 (disguise),
1 Kings 18:34 (**2x – a second time**), **Neh 13:21** (**again**), Est 1:7 (diverse),
Est 2:9 (preferred), Est 3:8 (diverse), Job 14:20 (changest), **Job 29:22** (**again**),
Ps 34:1 (changed), Ps 89:34 (alter), **Prov 17:9** (**again**), Prov 24:21 (change),
Prov 26:11 (**returneth**), Prov 31:5 (pervert), Jer 2:36 (change),
Jer 52:33 (changed), Mal 3:6 (change).

Strong's

שָׁנָה **shânâh**, shaw-naw'; a primitive root; to fold, i.e. duplicate (literally or figuratively); by implication, to **transmute** (transitive or intransitive):—do (speak, strike) **again**, alter, **double**, (be given to) change, disguise, (be) diverse, pervert, prefer, **repeat**, return, **do the second time**.

THE FUNDAMENTAL BASE STRUCTURE OF
AN H8141 – **SHANEH's** – CHARACTERISTIC
IS THAT IT INHERENTLY
REPEATS ITSELF AUTOMATICALLY -
DUPLICATING ITS OWN LIKE KIND!

Once again we see
Creation's Pattern exemplified.

Concerning Yahuah's offer, Hezekiah requested the sun dial to regress 10 degrees! The result was a **lengthening** of the year from 360 cycles to **365.2425** cycles (Gregorian). **Also at this time**, this miracle **shortened the moon's lunation cycle** from 30 days to 27.321661 days of the lunation cycle for the first time since creation!

THE SHANEH 360
CYCLE YEAR!**

**Yahuah's
Covenant
Calendar ...**

WAS and STILL IS – a 360 cycle Shaneh year;
with 5.2425 cycles linked onto the end.

This is the exact format that Yehusha (as "changing not")
lived out the Torah before and after His death, **ON THIS EARTH!**

It was the Julian Calendar which dominated the world when **Yahusha** lived out his Life on this earth. So let's look at it!

Secular history documents: The Metonic Cycle (lunar calendar) was “discovered” by Meton the Greek around the 5th century BC! In 432 BC he introduced it into the lunisolar Attic Calendar. The Romans adapted characteristics of numerous calendars based on the moon, for their own.

See the Julian calendar

Replaced Lunar Calendar

The **Julian calendar's** predecessor, the Roman calendar, was a very complicated lunar calendar, based on the moon phases. It required a group of people to decide when days should be added or removed in order to keep the calendar in sync with the astronomical seasons, marked by equinoxes and solstices.

OVERVIEW

- THE **JULIAN CALENDAR**, proposed by JULIUS CAESAR in 46 BC (708 AUC), was a reform of the ROMAN CALENDAR. It took effect on 1 JANUARY 45 BC (709 AUC), BY EDICT. It was the predominant calendar in the Roman world, most of Europe, and in European settlements in the Americas and elsewhere, until it was refined and gradually replaced by the Gregorian calendar, promulgated in 1582 by Pope Gregory XIII.

THE JULIAN CALENDAR is still used in parts of the EASTERN ORTHODOX CHURCH, in parts of ORIENTAL ORTHODOXY, and by the BERBERS.

Note: The Ethiopian economy operated on the Julius calendar until recently! The Orthodox church still does! It is said that the Ethiopian calendar has 13 months as well.

An Ethiopian/Orthodox man I work with confirms the 13th month concept, yet he declares the **13th** month of the Julian calendar has only **5/6 days in the 13th month.** This fact has been searched out and confirmed. Please note that the extra days over the 360 were not interspersed by the quarters! They were added onto the end of the year, preserving the integrity of the 360 day year.

The Julian calendar also has strict 30 day months with **March 1 as new years day!!** This was the calendar in all the countries that were ruled by Rome, when **Yahusha** was on this earth.

**The Julian calendar
was not determined
by the Tequfah!
It was determined by
the lunar phases
of the moon!**

Who removed the TEQUFAH?

- LUKE 11:52 – “WOE TO YOU LEARNED IN THE TORAH BECAUSE *YOU TOOK AWAY THE KEY OF KNOWLEDGE,* YOU DID NOT ENTER IN YOURSELVES AND THOSE ENTERING IN YOU HINDERED.”

WAS IT THE SYSTEM OF THE 2ND TEMPLE HIERARCHY
THAT REMOVED THE TEQUFAH?

THE SAME IMPOSTER SYSTEM OF PRIESTS THAT YAHUSHA
REPRIMANDED AS — blind scribes, hypocrites, blind guides,
fools, blind Pharisees, sons of Gey-Hinnom,
SERPENTS & BROOD OF ADDERS!

What calendar format **REMOVED PEOPLE**
from observing Yahuah's "Way"
{the Old Paths which are presently being restored}?

On the next slide, an attempt has been made to match the
lunar full moons, as close as possible to
Yahuah's Tequfah based 360 degree completed circuit of the sun.

The full moons a "year" apart, in the months of January
are recorded in an attempt to view a
"point of departure with a return to the same" (Eccl 1:5),
360 degree circuit.

Why then does Yahuah adamantly and emphatically despise the lunar calendars?

- **Isa 1:12** When you come to appear before Me, who has required this from your hand, **to trample My courtyards?**
- **Isa 1:13** Stop bringing **futile offerings, incense, it is an abomination** to me. **New moons, Sabbaths, the calling of meetings** - I am unable to bear unrighteousness and assembly.
- **Isa 1:14** My being **hates your new moons** and your appointed times, they are a trouble to Me, I am weary of bearing them.
- **Isa 1:15** And when you spread out your hands, **I hide my eyes** from you; even though you make many prayers, **I do not hear**. Your hands have become filled with blood.
- **Isa 1:16** **Wash yourselves, make yourselves clean; put away the evil of your doings from before my eyes.**

in other words....

The moon is not
Chodesh, ever!

The moon's lunation cycle is
not found in the Mazzaroth –
the only place the Tequfah
can be found!

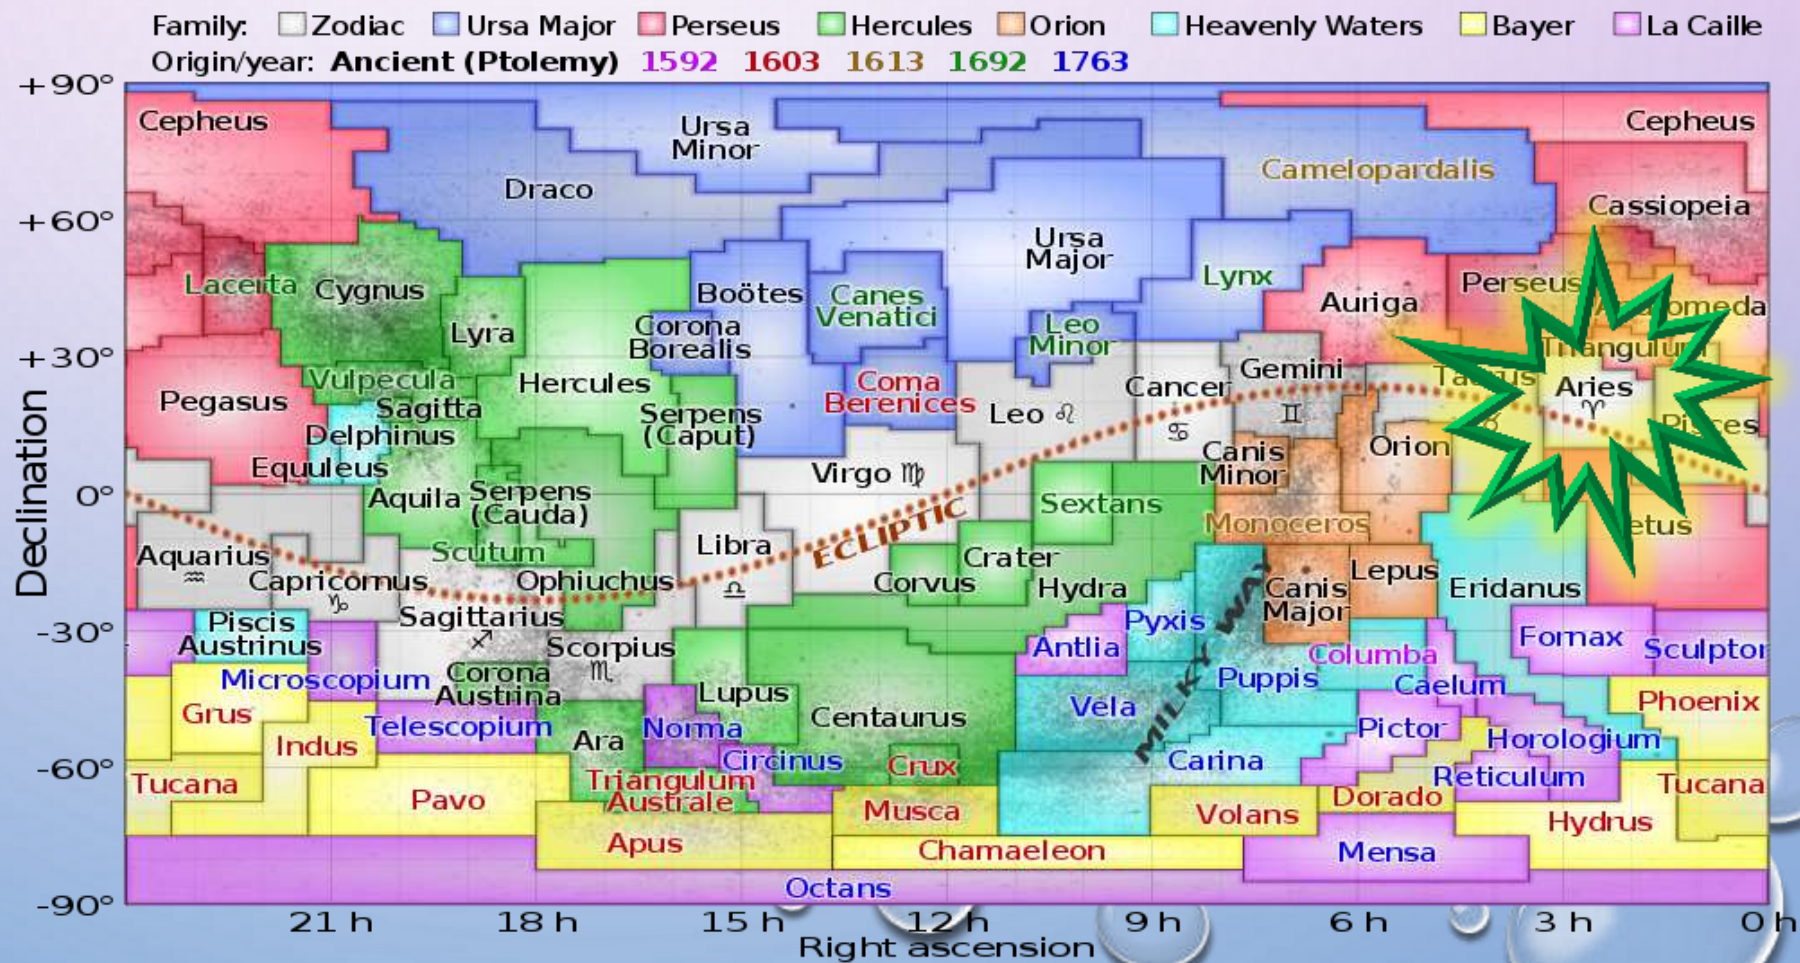

Therefore, the
moon can never
determine a
Chodesh month!

It's a
fact ...

**The Tequfah is found only as the sun moves through
a perfect circuit every year within the Mazzaroth
producing the 1st Chodesh month of the year!**

The moon has nothing to contribute.

The Tequfah is established when the sun returns to **Aries** at the Spring Equinox. Then the sun repeats the circuit by rebuilding a new Chodesh year.

- CONSEQUENTLY WHEN, YAHUDAH (the nation to be in charge of preserving the ordinances of Yahuah), agreed to capitulate to the pagan lunar based calendar to determine the FEASTS OF THE YAHUDIM, they were not on YAHUAH'S COVENANT MO-EDIM CALENDAR!
- That is why YAHUSHA was found 3 days after the Feast of the Yahudim, presenting Himself in accordance with Ex 23:15-17, in His Father's Tabernacle at 12 years old. (The age of accountability.)
- It is also why Yahusha joined the Jewish Tabernacles feast in the middle of their week. Prior to this, Yahusha's Covenant Calendar Feast of Tabernacles had been fully completed.

SHANEH

YAHUSHA said –

“MY TIME IS NOT YET!”

(But **Judah's** lunar based calendar was
always ready; through human formatting
and documented manipulation!)

- *YAHUAH'S* incredible simplistic system based on the *Tequfah*, at first site, seems difficult to understand, simply because it is so simple!

Creation's First Tequfah

Who are Yahuah's
Shaneh
Witnesses?

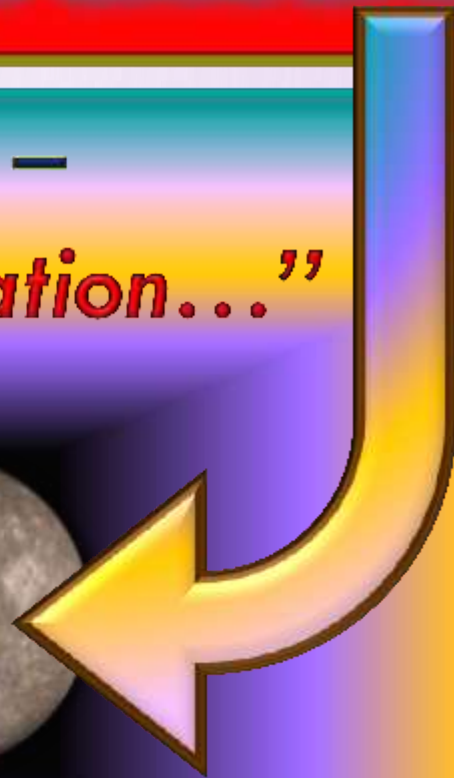

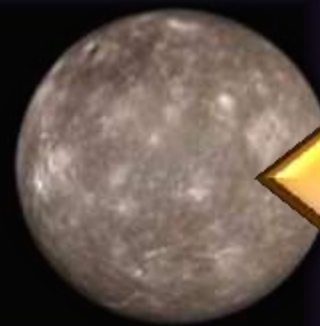

Part #2

Yareach - The Wanderer

When Ha Satan proclaimed –
“*Let me sit in the Mount of Congregation...*”

(Isa 14:13),

was Yahuah's lunar orb,
MISREPRESENTED, and
covertly **RECOMMISSIONED**
as the **ADVERSARY'S**

KEY OF DECEPTION?

Can we question **Yahuah's** Accuracy?

Did **Yahuah** indicate – I will return on an appointed time of which the moon will determine it - **SOMETIME** by an **UNDEFINED** lunar phase?

Remember:

1. The moon phases can **fluctuate** nearly one month from year to year.
2. Scriptures document Abraham as living **Shaneh** (years) that **fully repeat a second time** sequentially for **EACH AND EVERY YEAR** of his life. (Next slide.)

Did **Yahuah** allow the moon to dictate the birth of the Hebrew nation (Isaac)?

OR

*Did Yahuah abide by (no changing/Mal 3:6) the type of **year** identified and imposed on this earth (**Shaneh/Tequfah**) at creation found in **Genesis 1:14**?*

The *Mazzaroth* & the Moon - a SPIRITUAL LIGHT presence?

The Mazzaroth –

Let's look at the Scriptural witnesses of years repeating **IN A SEQUENTIAL MANNER.**

- *Deut 14:22* Thou shalt truly tithe all the increase of thy seed, that the field bringeth forth **YEAR** H8141 by **YEAR** H8141.

- See also – Deut 15:20; 1 Sam 1:7; 1 Kings 5:11; 10:25
2 Kings 17:4; 2 Chr 9:24; Neh 10:34, 35.

- The Moon –
does provide an
agricultural contribution
connection to the
harvest.
- The growing seasons
controlled by the moon
produce in part, the
increase of the seed!

The *Mazzaroth* or the **Lunar Moonth?**

- **Shaneh H8141** is used a total of **875** times in its various word formats.
- There are approximately **840 witnesses** to the **EVENLY DIVISIBLE – SEQUENTIALLY REPEATING – YEAR** that **Yahuah** identified in **Genesis 1:14** as being for SIGNS and **APPOINTED TIMES!**
- Isaiah told us 7 times that if we want to know the ending,
we must understand the *BEGINNING*. (See Isa 46:9-10.)
- Genesis has been exposed (very basically) as recording the MelchiTzedek Priests and other Patriarchs lives as specifically and exquisitely operating on the **H8141 – SHANEH/YEAR WHICH THOROUGHLY ELIMINATES THE MOON!**

A Collection of Various Verses

Let's look at more verses that contain the word **SHANEH** - H8141 - **YEAR**.

When you see this word, just apply the definitions and think what that might mean.

Gen 15:13 And he said to Abram, “know for certain that your seed are to be sojourners in a land that is not theirs, and shall serve them, and they shall afflict them **FOUR HUNDRED YEARS**. (See also Acts 7:6.)

(That is: 400 **SHANEH** years without the moon guiding them!)

Exo 12:40 And the sojourn of the children of Yisra'el who lived in Mitsrayim was **FOUR HUNDRED AND THIRTY YEARS**. (See also Gal 3:17.)

Exo 12:41 And it came to be at the end of the **FOUR HUNDRED AND THIRTY YEARS**, **on that same day it came to be** that all the divisions of יהוה [Yahuah] went out from the land of Mitsrayim.

A Collection of Various Verses (con't)

Exo 12:41 (review) – **“on that same day it came to be...”**

- Is it even possible to calculate the odds of this event occurring on the exact same day 430 years later on the lunar calendar with its **extreme variations?**

Interestingly, it would be a simple understanding when considering

Yahuah's Covenant Calendar has an **EXTREMELY ACCURATE FORMAT!**

Exo 23:17 Three times in the **YEAR** [Shaneh] all your males are to appear before the master יהוה [Yahuah].

WAS YAHUSHA BOUND BY STATUTE TO ALSO ATTEND THE LUNAR BASED FEAST OF THE YAHUDIM ??? – see John 7:14!

A Collection of Various Verses (con't)

On the last question's note: What about when **Yahusha** was at the accountable age of 12 years, He was found 3 days after the Feast of the **Yahudim** ended? What type of year was **Yahusha** then following? Was **Yahusha** WITNESSING?

ALSO:

Would this same **type** of year – **SHANEH** – [in which all males are required to appear before **Yahuah**]

contain an Atonement Day? (Next slide !!!!)

Why do these particular events require a **Tequfah/Mazzaroth** based format?

Could **punctuality** and **accuracy** somehow figure into **Yahuah's** timing?

Exo 30:10 “And Aharon shall make **Atonement** upon its horns
once a **YEAR [Shaneh]** with the blood of the sin offering of atonement
– **ONCE A YEAR [Shaneh] HE MAKES ATONEMENT UPON IT
THROUGHOUT YOUR GENERATIONS.** It is most set-apart to
יהוה [Yahuah].”

Since Atonement Day comes **every** Tishri 10th, does this **verse** indicate positively
that **EVERY year that contains an Atonement day** is – **SHANEH** –

with an **EVEN 12 MONTHS,**

which **REPEAT A SECOND TIME BY** -

**A MIRROR IMAGE,
A WIKBOB IWAGE'**

**and is a SEQUENTIALLY
DUPLICATING – YEAR?**

If ... years that contain an Atonement Day appear in this format –

Year #1: 12 months

Year #2: 12 months

Year #3: 13 months (?)

THEN ... has year #3 shown an exact mirror image (a **SHANEH duplication**) of years 1 & 2?
Or is year #3 a “**rogue**” year?

Yes, the 19 year Metonic Cycle demands a 13th month approximately every 3rd year to re-align with the seasons.
Would this 3rd year with 13 months be any different?

Could a 13th month year possibly be a **FOLDED OVER**
(**DUPLICATION**) **EXACT SECOND COPY** of **FOLDED OVER**
(**DUPLICATION**) **EXACT SECOND COPY**

YEARS 1 & 2????

NEXT!

Jubilees – Shaneh?

Lev 25:4 But in the **seventh YEAR** the land is to have a Sabbath of rest, a Sabbath to יהוה [Yahuah]. Do not sow your field and do not prune your vineyard.

Shaneh

Lev 25:8 And you shall count seven sabbaths of **YEARS** for yourself, seven times seven **YEARS**. And the time of the seven sabbaths of **YEARS** shall be to you **forty-nine YEARS**. [**49 SEQUENTIAL YEARS!**]

Lev 25:10 And you shall set the **FIFTIETH YEAR** apart, and proclaim release throughout all the land to all its inhabitants, it is a jubilee for you; and each of you shall return to his possession, and each of you return to his clan.

Jubilees – Shaneh?

Lev 25:11 THE FIFTIETH YEAR is a **jubilee** to you. Do not sow, nor reap what grows of its own, nor gather from its unpruned vine.

We have just read verse 8 that informs us of 49 successive years that **“SHANEH”** is applied to **EACH** and **EVERY ONE** without exception! Now – the 50th too!

That is – 12,
12,12,12,12,12,12,13, 12,12,12,12,12,12,12,12,12,12,12,12,12,12,

The Metonic Cycle cannot duplicate with perfection!

12,12,12,12,12,12,12,12,12,12. 50 years! ?

Can anyone see the year that is NOT SHANEH? The year that does not perfectly duplicate a second time? If only **ONE** lunar year is insidiously mixed into the count, will the Scripture's statute requirement of **50 SHANEH** years be fulfilled?

Time is Eliminated??

Yahuah at Creation established His **Shaneh** year format that inherently replicates automatically. When man inserts a lunar month/(period), the *mirror image replication factor* immediately terminates!

How many LUNAR BASED years in a Jubilee?

Until when does the Jubilee cycle occur?

Deut 7:9 Know therefore that [Yahuah] thy Elohim, he is Elohim,
the faithful El, which keepeth covenant and mercy with them
that love him and keep his commandments to
A THOUSAND GENERATIONS.

Let's look at the Hebrew word & definition
for a *Scriptural* **LUNAR YEAR.**

A Black Hole only!? OK, let's move forward.

Did the Moon Lead out in the Wilderness?

Amos 2:10 Also I brought you up from the land of Egypt, and led you **FORTY YEARS [SHANEH]** through the wilderness, to possess the land of the Amorite.

The Wilderness **YEARS** were ALL an even number of months, and were fully able to – each one – repeat itself in PERFECT DUPLICATION.

Really it is no wonder, because the **Pillar of Fire** was there 24/7 – for 14,400 days (40 **YEARS** x 360 days)!

What happened with Abram's Seed?

Gen 15:13 And He said unto Abram, know of a surety that thy seed shall be a stranger in a land *that is* not theirs, and shall serve them; and they shall afflict them **FOUR HUNDRED YEARS [SHANEH]**.

Point of Interest – Abraham's seed was to be afflicted for 400 **SEQUENTIALLY DUPLICATING** years that relied on the movement of the sun within the Mazzaroth for leadership!

What does **400 Shaneh** years multiplied by 360 days of the *Covenant Calendar* **Shaneh** year add up to?

144,000!

And Enoch's year - with 364 days/year?

What does 400×364
(Enoch year) = 145,600?!

Did Yahuah's perfect
synchronicity just fly
out the window?

The Earth made *New* - The Worship Years!

Zech 14:16 And it shall come to pass, *that* every one that is left of all the nations which came against Jerusalem shall even go up from

End from the Beginning.

Adam lived this !

Yahuah's people will **AGAIN** live according to His Torah!

- **797 times the word Shaneh is translated as – year.**
- **3 times Shaneh is translated as – yearly.**
- That is approximately 800 times Shaneh references a year that is multiplied by a mirror duplication effect.
- Within those 800 times, how many references indicate a segment of successive years? i.e. ***Jubilees!?***

- **800 times** the Tanach points to Revelation 12:1.

There **Bethula** the **Bride of Yahusha** will *receive victory* over observing **pagan lunar traditions** while worshipping **Yahuah!**

Throughout the Tanach are 800 witnesses to the year that requires the **sun to leave its home base** and hurry back to its **ORIGINAL PLACE** – See Eccl 1:5 –

- THE SUN ALSO ARISETH, AND THE SUN GOETH DOWN, AND HASTETH TO HIS PLACE WHERE HE ARISETH.
- Does this fulfill the completed CIRCLE definition found within the Hebrew word - *Shaneh*?
- What about Psalms?

- *Ps 19:4* Their line has gone out through all the earth, and their words to the end of the world. In them he set up a tent for **the sun,**
- *Ps 19:5* And it [**the sun**] is like a bridegroom coming out of his room, it rejoices like a strong man to run the path.
- *Ps 19:6* **Its [the sun's] rising is from one end of the heavens, and its circuit to the other end;** and naught is hidden from its heat.

Let's look closer at it!

Yahuah has declared His **Parameters** within the **Mazzaroth**!

QUESTION:

**SIDEREAL
MONTH**

Does man recognize Yahuah's 360
degree revolution of the **moon's**
SIDEREAL {27.321 days} **MONTH?**

- Here is man's documentation that exposes how the moon must **EXCEED** **Yahuah's** parameters of a full 360 degree circle!

#1 Synodic Month [29.53 days]

This is the average period of the Moon's revolution with respect to the line joining the Sun and Earth.

The **synodic month** is the period of the Moon's phases, because the Moon's appearance **depends on the position of the Moon WITH RESPECT TO THE SUN** as seen from the Earth.

Yahuah's **MAZZAROTH**
has been ignored!

#2 Sidereal Month [27.321 days] While the Moon is orbiting the Earth, the Earth is progressing in its orbit around the Sun [?].

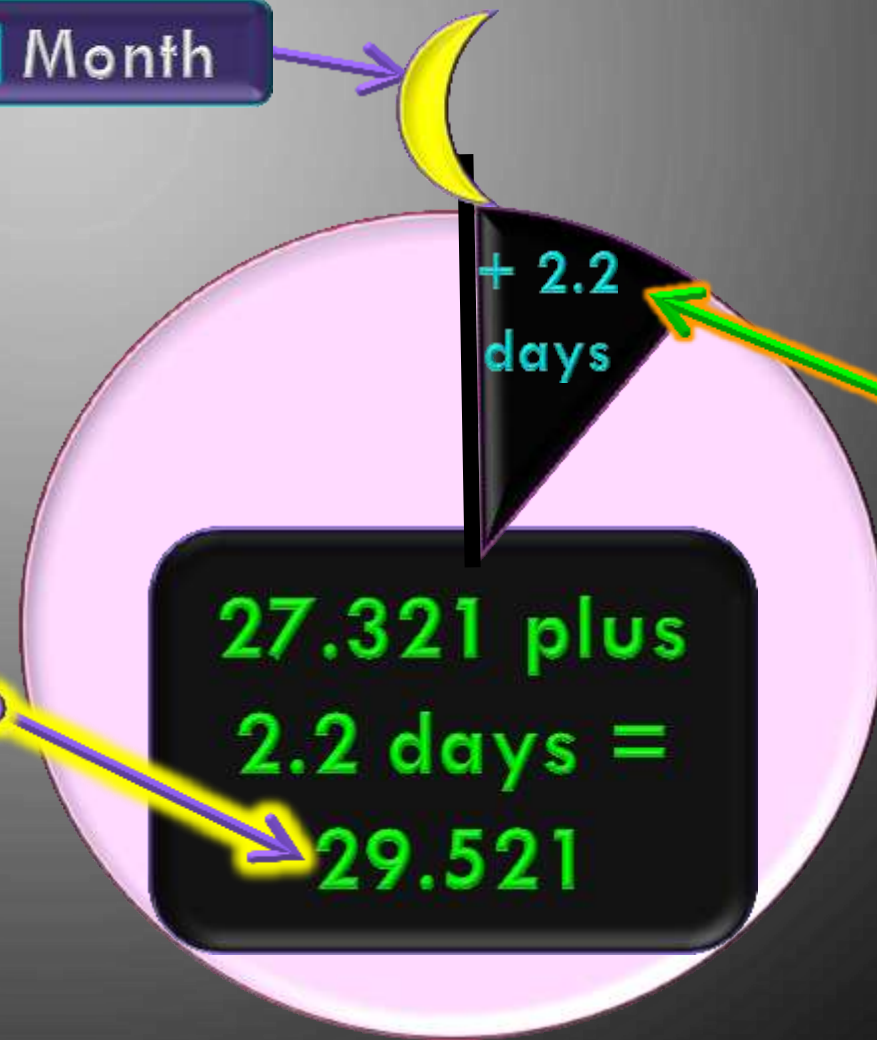

After completing a sidereal month
[360°] **the Moon MUST MOVE A LITTLE FURTHER to reach the new position**

having the same angular distance from the Sun. This longer period is called the synodic month (Greek: $\sigma\upsilon\nu\omicron\delta\iota\kappa\acute{o}\varsigma$, sunodikos, meaning "pertaining to a synod, i.e., a meeting" [in this case of the Sun and the Moon]).

Man's Imposed Synodic Manipulation

Yahuah's 27.321 cycle 360° **Sidereal** Month

The Metonic Cycle's 29.5 day lunar month is an **ARTIFICIAL** extension from man. This is Satan's **ABOMINABLE** attempt to duplicate Yahuah's 30 day **Covenant Calendar month** by using the moon.

The Moon must

for a Synodic Month

27.321 plus
2.2 days =
29.521

Who is THIS "god"?

Yahuah's 360° Sidereal Month

The Creator's decree is not good enough for me.

I will be "the god" and make my own parameters.

Isa 14:13 ... Let **ME** go up to the shamayim, let **ME** raise my throne above the stars of El, and let **ME** sit in the Mount of Meeting on the sides of the north.

The Moon must **move further** for a Synodic Month

Mount of Meeting:
the Qodesh Appointed Times
or Mo-edim of **Yahuah!**

Where do the Scriptures say ANYTHING
about determining time by a line connecting
the earth, moon and the **SUN**?

Has anyone heard of the concept of placing the SUN at the
center of everything in life? (Heliocentric earth?)

See *Deut 4:19* for a stern warning not to serve the sun,
moon and stars!

Who has declared **he** will control the
Appointed Times of Yahuah?

Is it the same character that controls **this earth's** calendars?

When man declares a whole set of different parameters
from which is in the Scriptures, what is our choice?

Should this “**physical synodic light**” from the moon
actually be considered our spiritual light to determine
our worship practices to our Creator?

How many “**Great Lights**” did He really create?

LIGHT

SUN

Mazzaroth!

Are man's
lunar "geometry"
ideas found to be
seriously deficient?

MOON

Yahuah declared

TWO

GREAT LIGHTS!

Man's **lunar "geometry"**
ideas *(that the moon has light
and is the ruler of the night)*
produces too many **serious**
gaps in view of the
Scriptures.

Some Notable Gaps:

1. No mention of a "new Moon."
2. No instruction to regard the moon.
3. Commands to **NOT** worship or regard the moon!
4. **Yahuah DESPISES** man's lunar months!

In observing the lunation cycles of the moon, is it possible to declare the moon returns to its exact location within a one year rotation?

Please consider when we used to look to the moon to determine when Passover occurred!

Do you recall that the moon month demands from 1 - 4 weeks difference for the Passover from year to year?

Does the moon adhere to **Yahuah's** outline for **CONSISTENTLY** completing a 360° circle – POINT OF ORIGIN, THEN RETURNING TO POINT OF ORIGIN?

Can the **SHANEH** (repeat a second time) – possibly be associated with the moon?

MOSHEH AND THE MOON?

Yahuah spoke to Mosheh identifying and commanding the exact timing of the start of His Worship Cycles – *The Way*.

In Exodus 12:2, did **Yahuah** identify the Moon as being the guiding *LIGHT* for timing the Mo-edim?

OR,

Is it possible that **Yahuah** identified the

Tequfah/Mazzaroth based year to Mosheh with **BLINDING SPECIFICS** right there in Exodus 12:2?

YAHUAH'S WORDS

Exo 12:2 This moneth shalbe vnto you the beginning of moneths: it shalbe to you the first moneth of the **YERE.**

Exo 12:2 This month *shall be* to you the beginning of months: it is the first to you among the months of the **YERE.**

Brenton's Septuagint

SHANEH 8141 – YEARS

SHANEH 8141 – YEARS

In effect, **Yahuah** told Mosheh –

1. Yisra'el's years sequentially repeat in exactness.
2. Yisra'el's years maintain an even number of months in which there are no remainder months (i.e. – a 13th month) !
3. Yisra'el's years mirror by exact duplication the pattern laid out by the **Tequfah/Mazzaroth** based cycle which maintains a **Teshuva** {A TURNING, TO RETURN} of the Sun within the Mazzaroth.

4. Yisra'el's year is initiated by the Tequfah (EQUINOX)
each and every year. Period.

5. Yisra'el's year will maintain the format of a perfect
360° circle, nothing more, nothing less!

6. Yisra'el's **WORSHIP** year will maintain perfect symmetry
WITHOUT CHANGE - **EVER!**

Question to ponder:

Can prophecy be fulfilled in any other type
of year than a 360 day Shaneh year?

In **Deut 11:10-12** Mosheh is describing to the Yisra'elites of the type of land that they were going to inherit. Mosheh then tells them of the **yearly condition** that **Yahuah** has for them.

Deut 11:12 A land which יהוה [Yahuah] your Elohim looks after. The eyes of יהוה [Yahuah] your Elohim **ARE ALWAYS ON IT**, from the beginning of the **YEAR [SHANEH – H8141]** to the latter end of the **YEAR [SHANEH – H8141]**.

QUESTION: IS IT STRANGE THAT YAHUAH'S – **“ALWAYS”** – **DOES NOT COMMIT HIM** TO WATCHING OVER THE LAND IN A LUNAR CALENDAR'S **13TH MONTH, NOR ON THE “NON-ACCOUNTABLE” LUNAR MONTH DAYS?**

What does the MelchiTzedek Covenant declare for
the time a servant must be freed?

Exo 21:2 “When you buy a Hebrew servant, he serves **SIX**
years **[SHANEH 8141]**, and in the **seventh** he
goes out free, for naught.

No 13th month here!

A lunar calendar must of necessity adjust the calendar approx. every 3rd
year to be as close as possible to the seasons. This adjustment demands
a 13th month be added onto the 12th month. The Jews have given this
13th month the same name as the 12th month [named Adar the 12th],
as Adar the 13th month, approximately **EVERY THREE YEARS!**

Yet the MelchiTzedek Covenant declares a Hebrew slave must work 6 **Shaneh** years and the 7th **Shaneh** year that slave goes free! What does this mean in terms of timing?

Each of those 7 years must support the concept of being **REPEATABLE** the second time in absolute exactness.

The Hebrew and Aramaic Lexicon of the Old Testament by Koehler & Baumgartner – pgs 1597 – 1602 portrays **Shaneh** – **double, to make double, fold, repeat, to do a second time** – definition view.

The sum of months in each year within the 7 years the slave **must serve**, will be divisible by **2** and have zero remainder months left over! “13” cannot be divided evenly!

According to the MelchiTzedek Covenant a Hebrew slave **was never** required to work in a lunar year of any type!

Think about that for a moment and consider the deep ramifications this brings to the lunar based calendar platform!

Is it even possible that Satan could impose his lunar years on a Hebrew slave?

For some reason Yahuah does not recognize nor accept that man requires a 13th month every 3rd year [or so] to re-align his lunar calendar with the seasons.

Will this change with a testimony from Jeremiah?

JER 32:1 The word that came to Yirmeyahu from יהוה [Yahuah] in the tenth YEAR [Shaneh – 8141] of Tsidqiyahu sovereign Yehudah, which was the eighteenth YEAR [Shaneh – H8141] of Nebukadretsar.

Tsidqiyahu (Zedekiah) was in his 10th year that contained an even 12 months – no more, no less! Even Nebukadretstar's life mirrored a - Tequfah based, “repeatable the second time” – calendar!

What about the persistent suggestion that Ezekiel portrays a 13th month in the Scriptures? Could it possibly be true?

Here are the verses that have “year” in our Scriptures as seen in Ezekiel.

Remember - each word – “year” – has come from **SHANEH.**

Ezekiel 1:1,2; 4:6; 8:1; 20:1; 24:1; 26:1; 29:1,17;
30:20; 31:1; 32:1,17; 33:21; 40:1; 46:13,17.

These are the verses within which Ezekiel has referenced a **TEQUFAH ACTIVATED**, Mazzaroth based, sequentially repeating mirrored pattern of perfect duplication, “year”! There are - **17 verses that demand a Tequfah based 12 month year!**

A quote from an article trying to establish a 13th month by Ezekiel.

Now, in Ezekiel 4:1-11 he is given instructions by YHVH to lay on his left side 390 days and when he accomplishes this he is to then lay on his right side 40 days; equaling a total of 430 days. The next time reference in Ezekiel is found in chapter 8:1 where we see that Ezekiel was sitting in his house in the sixth year (of king Jehoiachin's captivity) on the 5th day of the sixth month. This shows that Ezekiel had finished his instructions given in chapter 4 because he was sitting in his house not lying on either his left or right side. If Ezekiel was using a strictly solar calendar he could not have possibly obeyed YHVH's instructions by the time reference given in Ezekiel 8:1.

Let's take a close look at the texts in Ezekiel.

The claim is that a lunar based calendar is what guided Ezekiel to perform his duties commanded by **Yahuah**.

Again, here are the texts from Ezekiel that have the word **SHANEH** translated into the English word – **year**.

SHANEH

Ezekiel – Years

1:1,2; 4:6; 8:1; 20:1;
24:1; 26:1; 29:1,17;

33:21; 40:1; 46:13,17.

LUNAR WORD FOR YEAR??

Ezekiel – Lunar –Years?

Texts????????????

Where is the lunar year proof?

Let's **review** the primary root word for **SHANEH**.

It is H8138 **SHANAH**. The verses are – **Gen 41:32** (doubled),

1 Sam 21:13 (changed), 1 Sam 26:8 (second time), 2 Sam 20:10 (again),
1 Kin 14:2 (disguise), 1 Kings 18:34 (2x – a second time), Neh 13:21 (again),
Est 1:7 (diverse), Est 2:9 (preferred), Est 3:8 (diverse), Job 14:20 (changest),
Job 29:22 (again), Ps 34:1 (changed), Ps 89:34 (alter), Prov 17:9 (again),
Prov 24:21 (change), Prov 26:11 (returneth), Prov 31:5 (pervert), Jer 2:36
(change), Jer 52:33 (changed), Mal 3:6 (change).

Strong's

Next - Why are the opposite word meanings emphasized?

שָׁנָה **shânâh**, shaw-naw'; a primitive root; to fold, i.e. duplicate (literally or figuratively); by implication, to **transmute** (transitive or intransitive):—do (speak, strike) again, **alter**, double, (be given to) **change**, disguise, (be) diverse, pervert, prefer, repeat, return, do the second time.

QUESTIONS: H8138 also has the definitions showing
a **change**, a **transmute** or **alteration**.

Can these primitive root definitions also be applied to **Yahuah's** year?

If one looks carefully at these verses the only time a **change** is applicable
is when the context is **DIRECTLY** concerning a human.

However the “change” or “alteration” is most certainly used and highly
important when **Yahuah** declares He **DOES NOT CHANGE** nor
ALTER HIS WAY! See Ps 89:34 & Mal 3:6!

Since we see that prophecy is accounted for in **360 day**
DUPLICATEABLE YEARS, which of **NECESSITY MUST REPEAT OVER**
TIME AND TIME AGAIN, (Jubilee cycles), a definition of **change** and
transmute simply cannot be applied to **Yahuah's Covenant Year**.

What primitive root definition then remains compatible?

To repeat a second time!

Does this mean the **year** needs to only duplicate itself once making a total of 2 years? At this point will the duplication restriction be lifted providing grounds for change in the length of the year (i.e. lunar 13th month)?

No! Each Shaneh Scriptural year accounted for has the duplication, repeatable format applied to it!

When Scripture tells us the Jubilee cycle years are **Shaneh**; then each of those 50 years must be able to duplicate itself sequentially in a perfect mirrored format.

The Lunar year with the 13th month is simply and fully incapable of this perfect symmetrical sequentially duplicating format.

To repeat a second time!

The Jubilee year sequences –

At which point in time did **Yahuah** declare that
the **JUBILEE** sequence would terminate?

Or – **DO THEY EVER TERMINATE?**

How often does the **SHANEH** year repeat itself?

(Just some thoughts to ponder.)

Back to Ezekiel!

Ezekiel 1:1,2 gives us a definite outline of a **Shaneh** sequentially repeating year.

The lunar based year cannot produce duplicated sequentially repeating years.

Hence it becomes quite standard to understand the type of year format that

Ezekiel was referencing, is a **Mazzaroth/Tequfah** based 12 month year.

The only type of year that can possibly **duplicate perfectly** is the one that produces 12 types of fruit – one for each month – **EVERY** month. (**Rev 22:2**)

Ezekiel is telling us that he accounted these verses as timed by the Tequfah.

That means the following year ALSO must be a duplicate of the primary year.

The next year ALSO had a perfect 12 month format which duplicated itself a second time making a succession of 3 years, (or a perfect 36 months governed by the position of the sun), within the Mazzaroth determined as the Tequfah!

Then we reach **Ezekiel 8:1** **WHERE IT IS SUGGESTED** that this verse indicates a clear 13th month has been revealed.

In ch. 8:1, what does the Hebrew  word for **“Year”** reveal?

Eze 8:1 And it came to be in the **sixth year** (**Shaneh**), in the sixth month, on the fifth of the month, as I sat in my house with the elders of Yehudāh sitting before me, that the hand of the master **יהוה** [**Yahuah**] fell upon me there.

Ezekiel 8:1 positively identifies **6** **Tequfah/Mazzaroth** based, duplicating, (repeating a second time), type of year.

The lunar based calendar year simply cannot fulfill the Hebrew definitions for a **Mazzaroth/Tequfah** governing year!

By Hebrew definition and a massive amount of solid evidences in many Scriptures, it is absolutely impossible that Ezekiel was portraying a 13th month.

By Ezekiel's own testimony, a 13th month is just not possible.

The Tequfah/Mazzaroth calendar has a Hebrew word that perfectly describes it - SHANEH.

What is the Scriptural Hebrew word that by definition, perfectly describes a lunar year of 13 months?

SHANEH:

*Is it possible that
Shaneh can describe
ETERNITY?*

This box below symbolizes one full **Shaneh** year, **Tequfah** to **Tequfah**.

By the inherent definition characteristic of – repeat a second time, it must consistently repeat itself through ***PERFECT DUPLICATION***.

Because the first Shaneh (that you see) existed, the second Shaneh must be generated. It too, through perfect duplication **IS ALSO Shaneh**.

The 2nd is Shaneh, and then it too must - by inherent characteristic, duplicate itself!

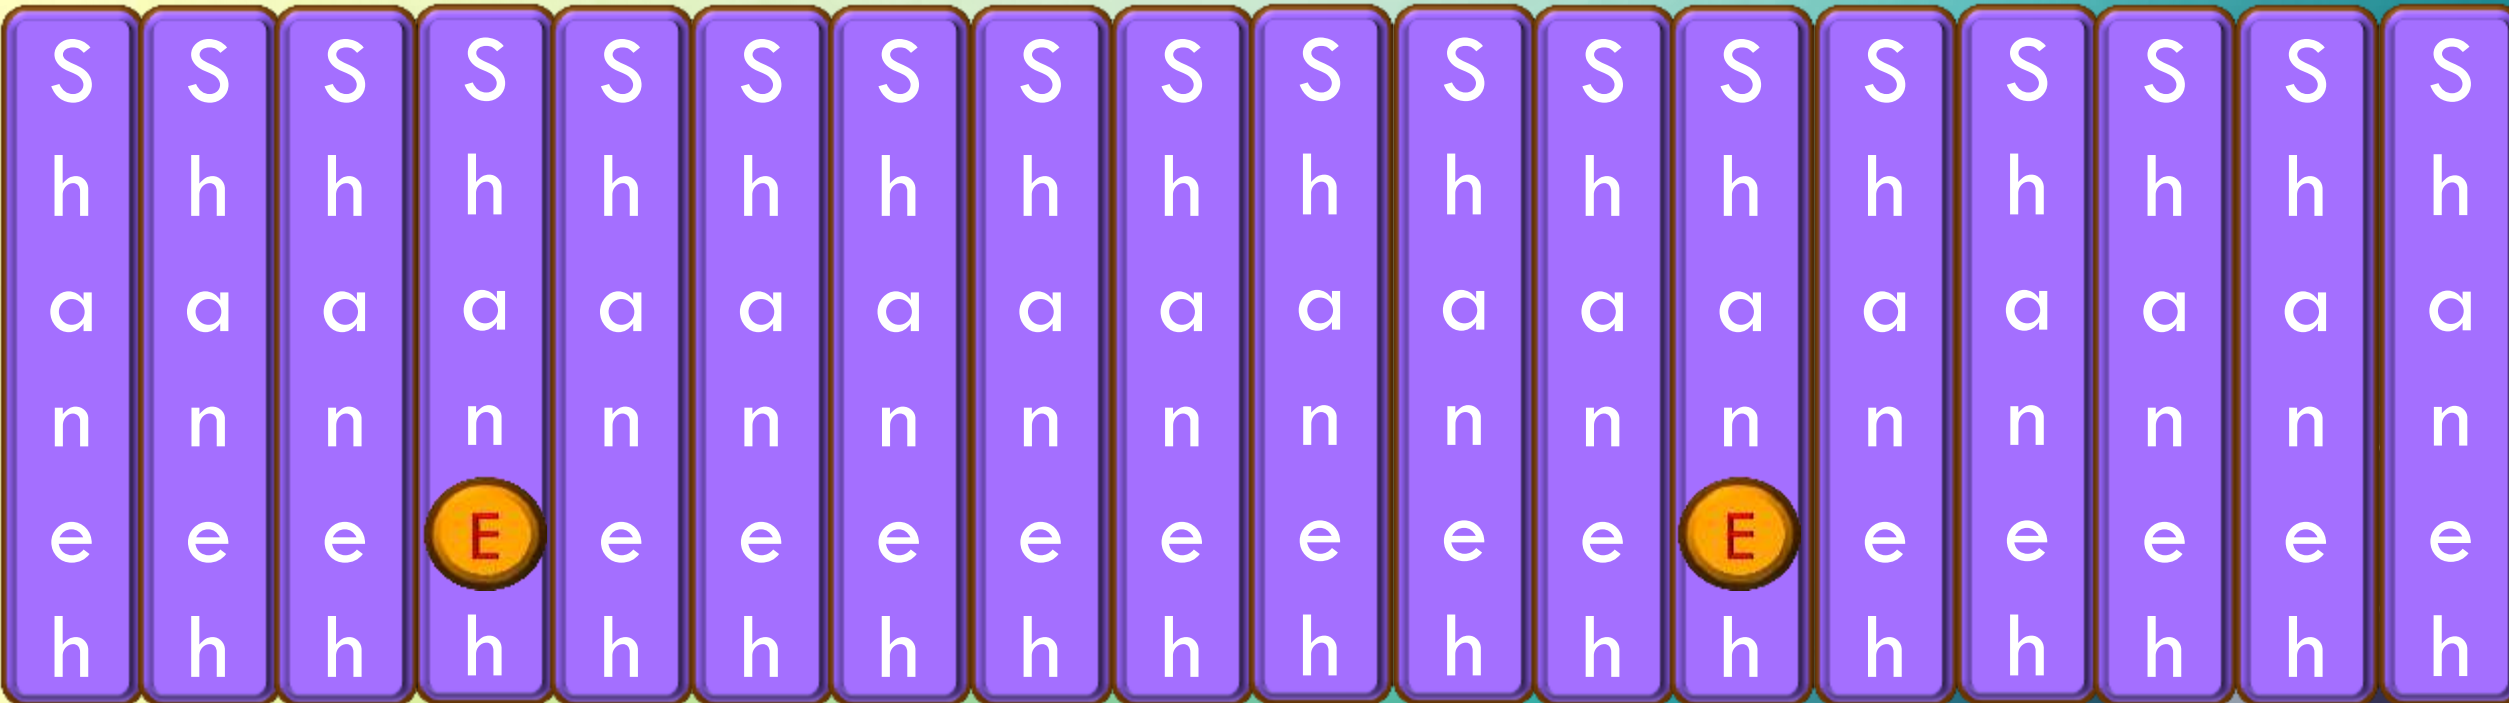

Shaneh #1 – From where did it derive?
Would there not have been a Shaneh **prior to it?**

What if Shaneh was occurring in **Yahuah's Kingdom, and ...**

... then Yahusha created the earth here -

**Genesis 1 – In the beginning
Elohim created the

Yahuah also established the Yisra'elite
nation - timed by the **Shaneh**;
it was the birth of Isaac.

Shaneh continues to **repeat after its own kind** as the pattern imprinted in Genesis 1:14 ... Mosheh in Exodus 12:2 was listening ...

This month is the beginning of months for you, it is the first month of the [*Shaneh*] year for you.

Rev 12:1 Bethula receives victory over lunar traditions of man!

Shaneh replicates itself! Why?

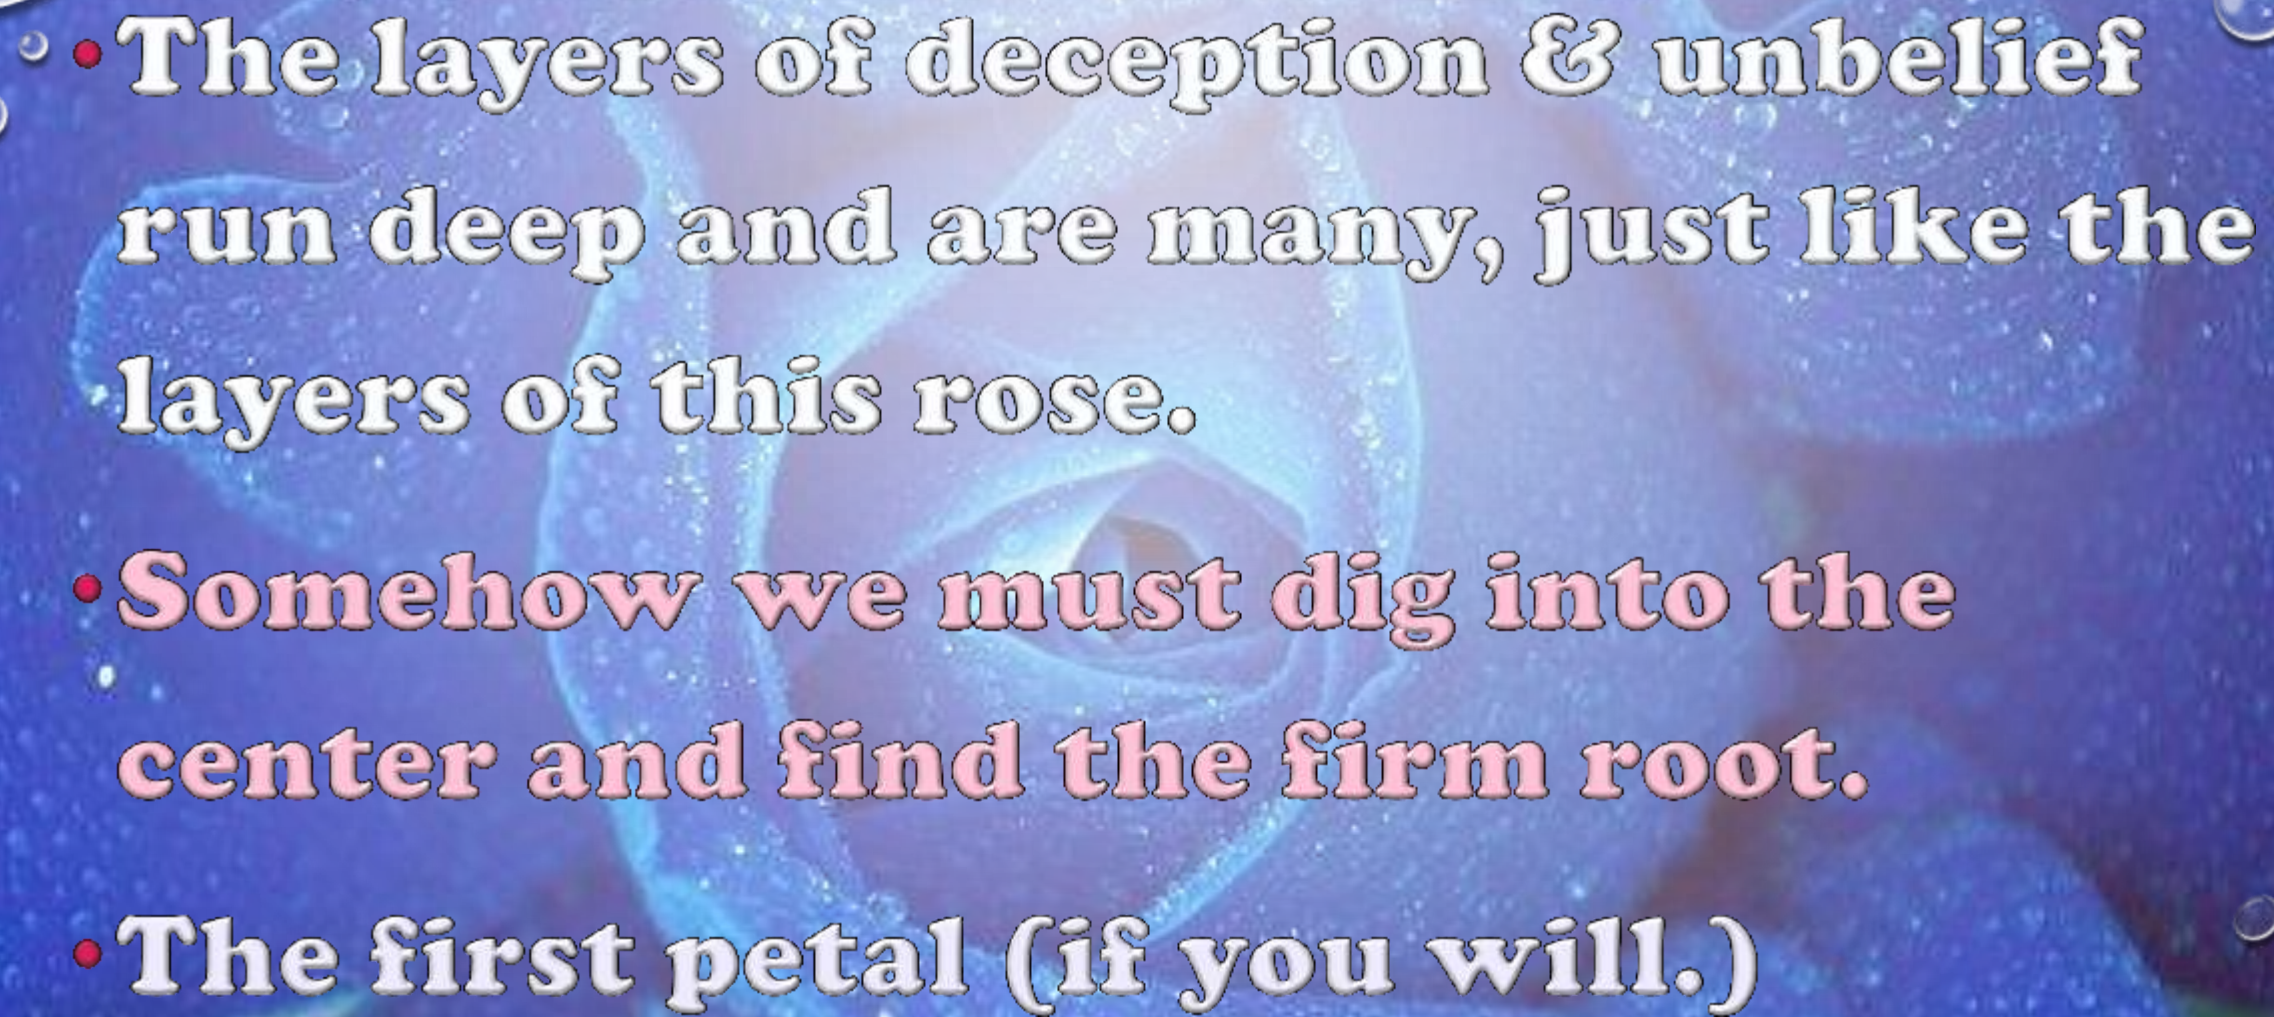

Because **Yahuah** declared it!

- *Rev 22:13* “I am the ‘Aleph’ and the ‘Taw’, the beginning and the end, the first and the last.

Acknowledgement alone does not qualify!

- *Rev 22:14* “**Blessed are those DOING His commands**, so that the authority shall be theirs unto the tree of life, and to enter through the gates into the city.
- *Rev 22:17* And the **Spirit** and the **Bride** say, “**come!**” and he **who hears**, let him say, “**come!**” and he who thirsts, **come!** and he who desires it, take the water of life without paying!

- 
- **The layers of deception & unbelief run deep and are many, just like the layers of this rose.**
 - **Somehow we must dig into the center and find the firm root.**
 - **The first petal (if you will.)**

A person is sitting on a bridge made of cardboard boxes. Behind them is a very bright, circular light source, possibly the sun, which creates a strong lens flare and silhouettes the person. The scene is outdoors, with trees and a fence visible in the background. The overall mood is one of hope or struggle.

Help My Unbelief

What about “Unbelief”?

**What
about**

“Unbelief is always questioning. ...
She [unbelief] does not know what she wants.
Unbelief has a very attentive ear to every new notion.
When this man over here has a novel doctrine and
someone over there has another fresh idea, unbelief
goes helter-skelter ... - ...this way or that!
She hears voices crying, "Lo here, and lo there!"
and like a silly bird she is lured and snared.”

Which road

That is exactly what is happening with many connected to counterfeit calendars. They battle with unbelief, not knowing what to do. Most go here, there and everywhere to find truth – especially to the internet, as if all the truth will be found there in one packaged document. Seeking everywhere ... except a thorough search of the Scriptures. Let us base our beliefs for Covenant Calendar in the Scriptures!

The End

MAY YOUR NAME BE FOUND AMONG
THE NUMBERS OF THOSE THAT

BELIEVE
HIS COMMANDS.

Atonement

What's
NEXT

What characteristic of starting the Atonement Sabbath by the evening of Tishri 9 causes it to take part on two days?

When does the actual Sabbath day of Atonement begin and when does it end??

What are we commanded to begin on the evening of Tishri 9?
