

Yahuah's Covenant Calendar -

The
Mini
Edition!

**Removes the Rubble
of Tradition!**

Are the Scriptures accurate?

Are there Scriptural
characteristics in the Gospels
that positively identify
the Crucifixion year so precise,
it simply cannot be mistaken?

Can you verify your beliefs in Scripture?

- Does **Yahusha's** Life begin at **Conception**?
- **AFTER THE FEAST OF THE JEWS** what was **Yahusha** **OBSERVING** **IN** the Tabernacle 3 Days "later"? Which statutes was Yahusha then fulfilling? Did you know HE was not lost?
- Was there really a **Midst** of the Week fulfillment, or was the crucifixion on Friday?
- Was **Yahusha** a Lamb of the 1st Year or a lamb of the 3rd year?
- Have you recognized from Scripture, the Two Different Calendars that functioned simultaneously together in the Gospels - fulfilling prophecy?
- Did you know the Gospels record TWO PASSOVERS - in ONE DAY!!
- Have you ever heard that **Matthew & John's** writings declare a phenomenal 12 HOUR OFFSET at these TWO Passover timings?!
- Did you know all of this information is documented with the Dawn to Dawn Reckoning of Yahuah's Covenant?
- Why did the Scribes negotiate business with Pilate - ON SHABBAT?

Visualizing the 12 Hour Offset

- The **12 hour offset** at Yahusha's Passover is found only on the 4th cycle [Wed].
- Yahuah's Covenant Calendar begins the day with the **Dawn** twilight.
- The lunar/solar calendar began its day **12 HOURS LATER – AT SUNSET.**

Abib 15

Abib 16

Yahusha crucified on the tree in this Light Season!

According to
Dan 9:27,
Passover must
be found on
a 4th cycle!

- Matthew & John establish the 12 hour offset lunar calendar

How can we be sure about this offset?

Of Crucifying Yahusha - When the scribes declared -

Matt 26:5 ... they said,

NOT AT THE FESTIVAL

lest there be an uproar among the people.

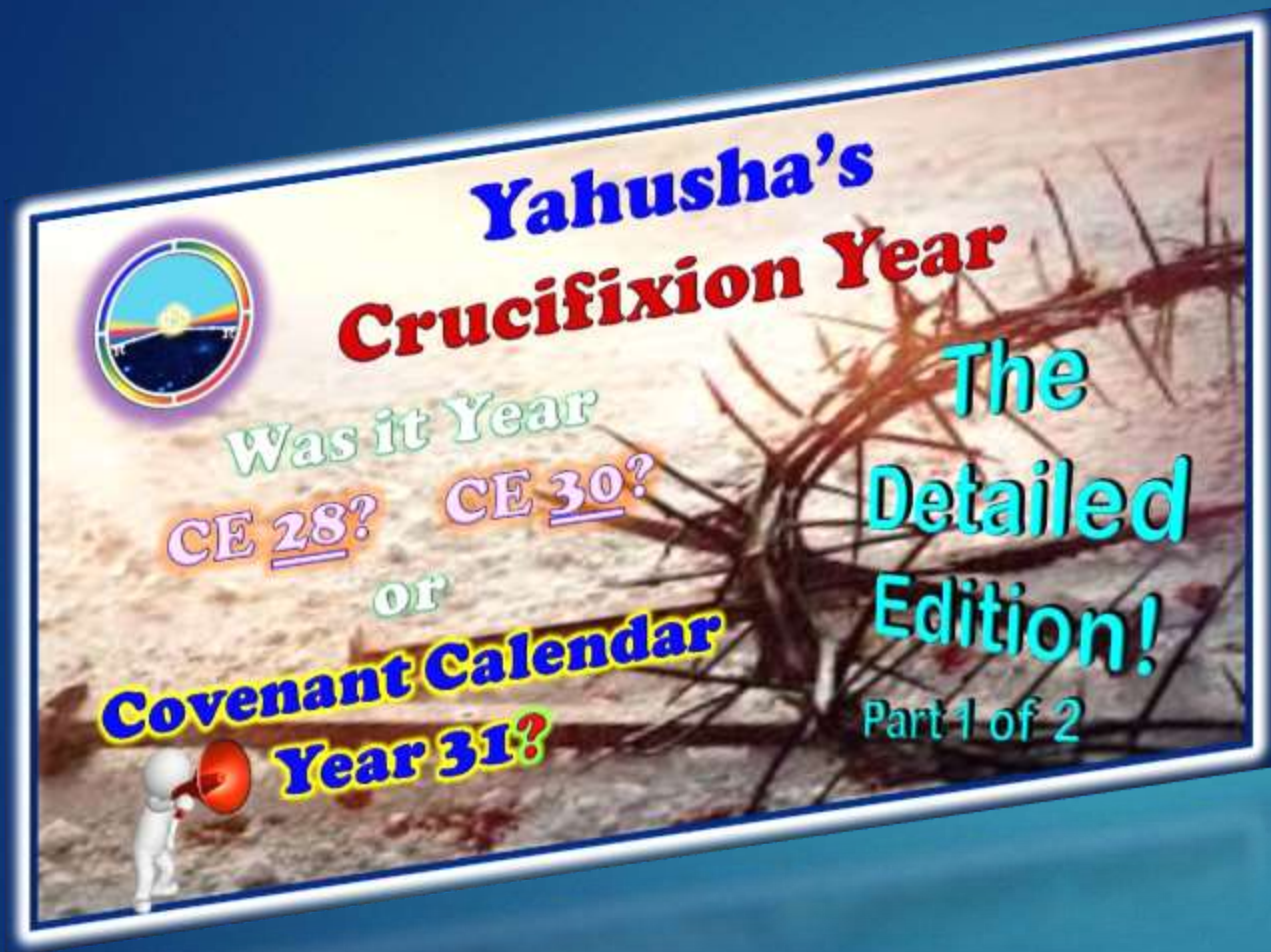

Of **WHOSE Festival** were they referencing?

Their Lunar Passover or the Passover of Yahuah's Covenant?

Did the scribes and Pharisees *fail* to their word,

or were they **STEADFAST** in their word?
