

# A Study on Yahuah's "Book of the Covenant" Calendar

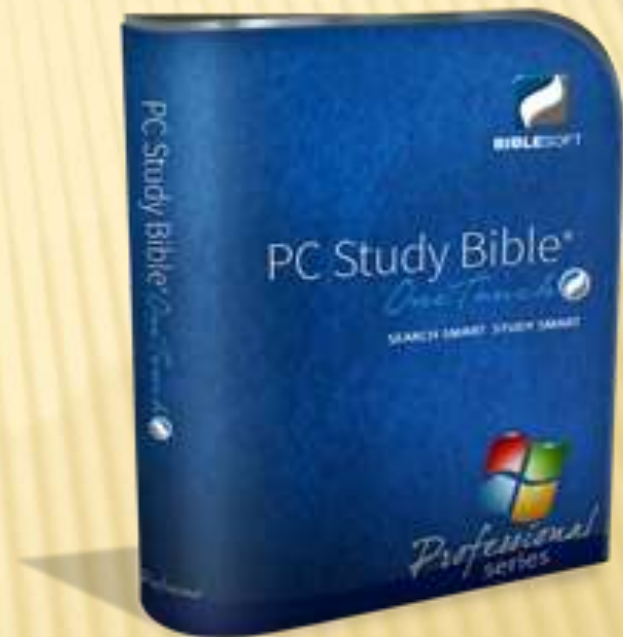

Rightly Divide

the WORD  
of

TRUTH

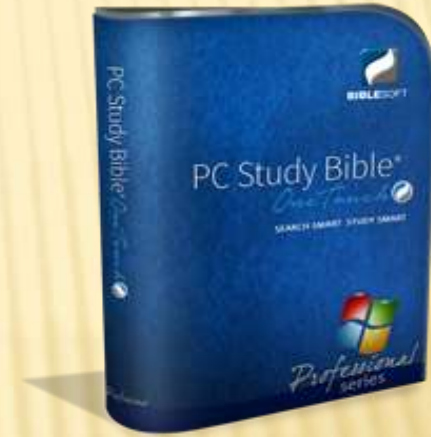

*The Moon! Oh, the Moon! Pt 7*

# Pointers to Remember When Using Computer Study Tools

# Popular Bible Study Tools

This short lesson will demonstrate some points of interest between three popular study tools for the calendar study.

1. E-Sword
2. Blue-Letter-Bible
3. PC Study Bible

*Will these study tools agree with each other?*

# The Moon Study Book Mark

Below are the five different Hebrew words with a total of 52 references in the <i>Strong's</i> that <u>have been translated</u> as moon or moons:		Number of verses for each Word # in the <i>Englishman's Concordance</i> .
#2	1. H3394 = 26 listings <yareach> This means the actual "literal moon" itself. <b>Noun</b>	1. H3394 = 26 listings
	2. H3391 = 2 listings <yerach> This is the root of H3394. This means the "lunation cycle" of the moon-month separate from the Biblical month for calculating the worship statutes. <b>Verb</b>	2. H3391 = 13 listings
	3. H3842 = 3 listings <lebanah> This means the "color" of the moon. <b>Adjective</b>	3. H3842 = 3 listings
#1	4. H7720 = 1 listing <saharon> A "comparison" of "another object" to the moon. THIS IS A <u>SIMILE</u> . e.g. [Something] round <u>like</u> the moon. <b>Simile</b>	4. H7720 = 3 listings
#1	5. H2320 = 20 listings <chodesh> A "repetitive occurrence" that can have similarities to H3391. <b>Verb</b>	5. H2320 = 283 listings
	Total: 52 "moon" references in <i>Strong's</i> .	Total: 54 = moon(s); #2 274 = month(s)

This "Moon Study Sheet" is a tool to understanding and remembering the basics of this important study.

The "listings" given are from the PC Bible Study Program.

Some explanation is necessary so each one will know how to use this bookmark efficiently.

We will examine several areas.

Below are the five different Hebrew words with a total of 52 references in the *Strong's* that have been translated as moon or moons:

Number of verses for each Word # in the *Englishman's Concordance*.

1. H3394 = 26 listings <yareach>  
This means the actual "literal moon" itself. **Noun**

2. H3391 = 2 listings <yerach> This is the root of H3394.  
This means the "lunation cycle" of the moon-month separate from the Biblical month for calculating the worship statutes. **Verb**

3. H3842 = 3 listings <lebanah>  
This means the "color" of the moon. **Adjective**

4. H7720 = 1 listing <saharon>  
A "comparison" of "another object" to the moon.  
THIS IS A SIMILE. e.g. [Something] round like the moon. **Simile**

5. H2320 = 20 listings <chodesh>  
A "repetitive occurrence" that can have similarities to H3391. **Verb**

Total: 52 "moon" references in *Strong's*.

1. H3394 = 26 listings

2. H3391 = 13 listings

3. H3842 = 3 listings

4. H7720 = 3 listings

5. H2320 = 283 listings

Total:   
274 = month(s)

# Possible Discrepancy #1 The Moon Study Book Mark

#1

1. When searching Strong's for "moon[s]" a total of 52 references are found.

Below are the five different Hebrew words with a total of 52 references in the *Strong's* that have been translated as moon or moons:

Number of verses for each Word # in the *Englishman's Concordance*.

1. H3394 = 26 listings <yareach>  
This means the actual "literal moon" itself. **Noun**

2. H3391 = 2 listings <yerach> This is the root of H3394.  
This means the "lunation cycle" of the moon-month separate from the Biblical month for calculating the worship statutes. **Verb**

5. H2320 = 20 listings <chodesh> A "repetitive occurrence" that can have similarities to H3391.	Verb	5. H2320 = 283 listings
Total: 52 "moon" references in Strong's.		Total: 54 = moon(s); 274 = month(s)

Possible  
Discrepancy #2

# The Moon Study Book Mark

1. In Strong's H3391 <yerach> had two listings for "moon."
2. When searching Englishman's for "H3391" eleven [11] other references were found as using the word "month[s]" for a total of 13 matches for H3391.

Below are the five different Hebrew words with a total of 52 references in the *Strong's* that have been translated as moon or moons:

Number of verses for each Word # in the *Englishman's Concordance*.

#2

1. H3394 = 26 listings <yareach> This means the actual "literal moon" itself.	Noun	1. H3394 = 26 listings
2. H3391 = 2 listings <yerach> This is the root of H3394. This means the "lunation cycle" of the moon-month separate from the Biblical month for calculating the worship statutes.	Verb	2. H3391 = 13 listings
3. H3842 = 3 listings <lebanah> This means the "color" of the moon.	Adjective	3. H3842 = 1 listings
4. H7720 = 1 listing <saharon> A "comparison" of "another object" to the moon. THIS IS A SIMILE. e.g. [Something] round like the moon.	Simile	4. H7720 = 8 listings
5. H2320 = 20 listings <chodesh> A "repetitive occurrence" that can have similarities to H3391.	Verb	5. H2320 = 283 listings
Total: 52 "moon" references in <i>Strong's</i> .		Total: 54 = moon(s); 274 = month(s)

## Possible Discrepancy #2 The Moon Study Book Mark

1. In Strong's H3391 <yerach> had two listings for "moon."
2. When searching Englishman's for "H3391" eleven [11] other references were found as using the word "month[s]" for a total of 13 matches for H3391.
3. How does this affect the final total given as 274 months? (Let's continue to see.)

1. H3394 = 26 listings <yareach>  
This means the actual “literal moon” itself. **Noun**

2. H3391 = 2 listings <yerach> This is the root of H3394.  
This means the “lunation cycle” of the moon-month separate from the Biblical month for calculating the worship statutes. **Verb**

3. H3842 = 3 listings <lebanah>  
This means the “color” of the moon. **Adjective**

4. H7720 = 1 listing <saharon>  
A “comparison” of “another object” to the moon.  
THIS IS A SIMILE. e.g. [Something] round like the moon. **Simile**

5. H2320 = 20 listings <chodesh>  
A “repetitive occurrence” that can have similarities to H3391. **Verb**

Total: 52 “moon” references in Strong’s.

1. H3394 = 26 listings

2. H3391 = 13 listings

3. H3842 = 3 listings

4. H7720 = 3 listings

Total: 54 = moon(s);  
274 = month(s)

## SOLVING Discrepancy #2 Moon Study Book Mark

[2a] In Strong’s H2320 <chodesh> has 20 listings for “moon.”

1. H3394 = 26 listings <yareach>  
This means the actual "literal moon" itself. **Noun**

2. H3391 = 2 listings <yerach> This is the root of H3394.  
This means the "lunation cycle" of the moon-month separate from the Biblical month for calculating the worship statutes. **Verb**

3. H3842 = 3 listings <lebanah>  
This means the "color" of the moon. **Adjective**

4. H7720 = 1 listing <saharon>  
A "comparison" of "another object" to the moon.  
THIS IS A SIMILE. e.g. [Something] round like the moon. **Simile**

5. H2320 = 20 listings <chodesh>  
A "repetitive occurrence" that can have similarities to H3391. **Verb**

Total: 52 "moon" references in Strong's.

1. H3394 = 26 listings

2. H3391 = 13 listings

3. H3842 = 3 listings

4. H7720 = 3 listings

5. H2320 = 283 listings #2b

Total: 54 = moon(s);  
274 = month(s)

## SOLVING Discrepancy #2 Moon Study Book Mark

[2a] In Strong's H2320 <chodesh> has 20 listings for "moon."

[2b] When searching Englishman's for "H2320" - 283 matches are found using the words moon[s]; month[s]; monthly, etc.

1. H3394 = 26 listings <yareach>  
This means the actual “literal moon” itself. **Noun**

2. H3391 = 2 listings <yerach> This is the root of H3394.  
This means the “lunation cycle” of the moon-month separate from the Biblical month for calculating the worship statutes. **Verb**

3. H3842 = 3 listings <lebanah>  
This means the “color” of the moon. **Adjective**

4. H7720 = 1 listing <saharon>  
A “comparison” of “another object” to the moon.  
THIS IS A SIMILE. e.g. [Something] round like the moon. **Simile**

5. H2320 = 20 listings <chodesh>  
A “repetitive occurrence” that can have similarities to H3391. **Verb**

Total: 52 “moon” references in Strong’s.

1. H3394 = 26 listings

2. H3391 = 13 listings

3. H3842 = 3 listings

4. H7720 = 3 listings

5. H2320 = 283 listings #2b

Total: 54 = moon(s);  
274 = month(s)

## SOLVING Discrepancy #2 Moon Study Book Mark

[2a] In Strong’s H2320 <chodesh> has 20 listings for “moon.”

[2b] When searching Englishman’s for “H2320” - 283 matches are found using the words moon[s]; month[s]; monthly, etc.

[2a] Removing the 20 “moon” matches leaves [2b] 263 matches using “month[s].”

1. H3394 = 26 listings <yareach> **Noun**  
This means the actual “literal moon” itself.

2. H3391 = 2 listings <yerach> **Verb**  
This is the root of H3394.  
This means the “lunation cycle” of the moon-month separate from the Biblical month for calculating the worship statutes.

3. H3842 = 3 listings <lebanah> **Adjective**  
This means the “color” of the moon.

4. H7720 = 1 listing <saharon> **Simile**  
A “comparison” of “another object” to the moon.  
THIS IS A SIMILE. e.g. [Something] round like the moon.

5. H2320 = 20 listings <chodesh> **Verb**  
A “repetitive occurrence” that can have similarities to H3391.

Total: 52 “moon” references in Strong’s.

1. H3394 = 26 listings

2. H3391 = 13 listings

3. H3842 = 3 listings

4. H7720 = 1 listings

5. H2320 = 283 listings

Total: 274 = moon(s);  
274 = month(s)

# Finally SOLVING Discrepancy #2 Moon Study Book Mark

[2a] In Strong’s H2320 <chodesh> has 20 listings for “moon.”

[2b] When searching Englishman’s for “H2320” - 283 matches are found using the words moon[s]; month[s]; monthly, etc.

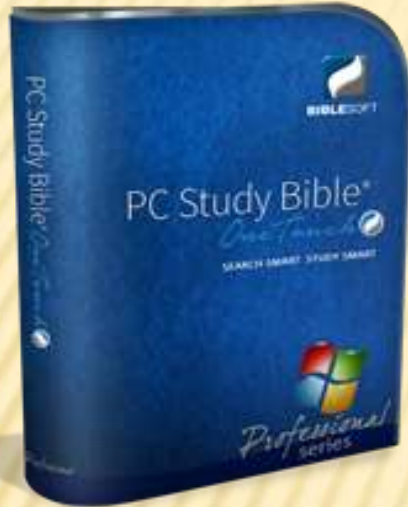

[2a] Removing the 20 “moon” matches leaves [2b] 263 matches using “month[s].”

[2c] H3391 has 11 matches for “month” [that must be added to the 263 months] bringing the total

[2d] to 274 [263+11] matches for “month[s] and monthly” in Englishman’s Concordance.

# Building Charts with Bible Study Tools

This book mark was designed using the PC Study Bible.

There is one more area on the Moon Study Book Mark that may appear as another discrepancy for those using either E-Sword or Blue-Letter-Bible Study tools.

Below are the five different Hebrew words with a total of 52 references in the Strong's that have been translated as moon or moons:

Number of verses for each Word # in the Englishman's Concordance.

1. H3394 = 26 listings <yareach> This means the actual "literal moon" itself.	Noun	1. H3394 = 26 listings
2. H3391 = 2 listings <yerach> This is the root of H3394. This means the "lunation cycle" of the moon-month separate from the Biblical month for calculating the worship statutes.	Verb	2. H3391 = 13 listings
3. H3842 = 3 listings <lebanah> This means the "color" of the moon.	Adjective	3. H3842 = 3 listings
4. H7720 = 1 listing <saharon> A "comparison" of "another object" to the moon. THIS IS A SIMILE. e.g. [Something] round like the moon.	Simile	4. H7720 = 3 listings
5. H2320 = 20 listings <chodesh> A "repetitive occurrence" that can have similarities to H3391.	Verb	5. H2320 = 283 listings
Total: 52 "moon" references in Strong's.		Total: 54 = moon(s); 274 = month(s)

# SOLVING Book Mark Discrepancy #3

Below are the five different Hebrew words with a total of 52 references in the *Strong's* that have been translated as moon or moons:

Number of verses for each Word # in the *Englishman's Concordance*.

1. H3394 = 26 listings <yareach> This means the actual "literal moon" itself.	Noun
2. H3391 = 2 listings <yerach> This is the root of H3394. This means the "lunation cycle" of the moon-month separate from the Biblical month for calculating the worship statute.	Verb
3. H3842 = 3 listings <lebanah> This means the "color" of the moon.	Adjective
4. H7720 = 1 listing <saharon> A "comparison" of "another object" to the moon. THIS IS A SIMILE. e.g. [Something] round like the moon.	Simile
5. H2320 = 20 listings <chodesh> A "repetitive occurrence" that can have similarities to H3391.	Verb
Total: 52 "moon" references in Strong's.	

1. H3394 = 26 listings
2. H3391 = 13 listings
3. H3842 = 3 listings
4. H7720 = 1 listing
5. H2320 = 283 listings
Total: 54 = moon(s); 274 = month(s)

The number in question is

**"283"**

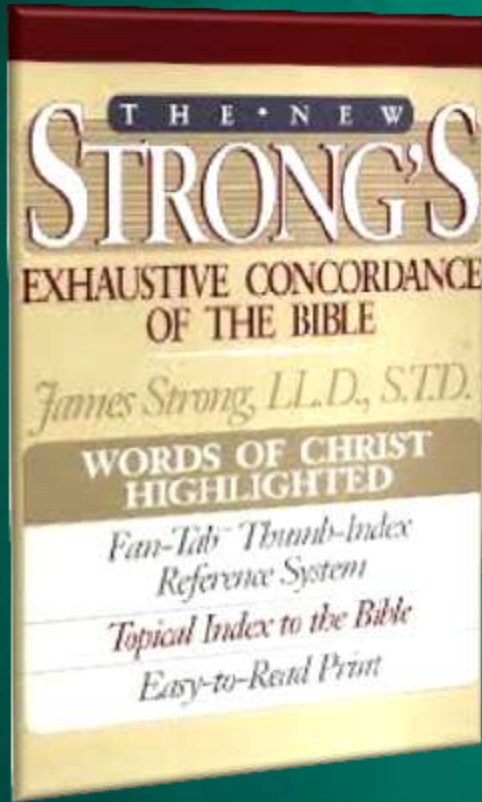

listings for H2320 chodesh.

**Question:**  
Will E-Sword & Blue Letter Study Bible agree with the PC Bible Study tool?

*Is there something important to learn from this exercise?*

# What About Strong's?

	E-Sword	Blue Letter		Englishman's

These three study tools agree approximately only 7% of the H2320 <chodesh> listings are translated as “moon/s” instead of “month/s”!

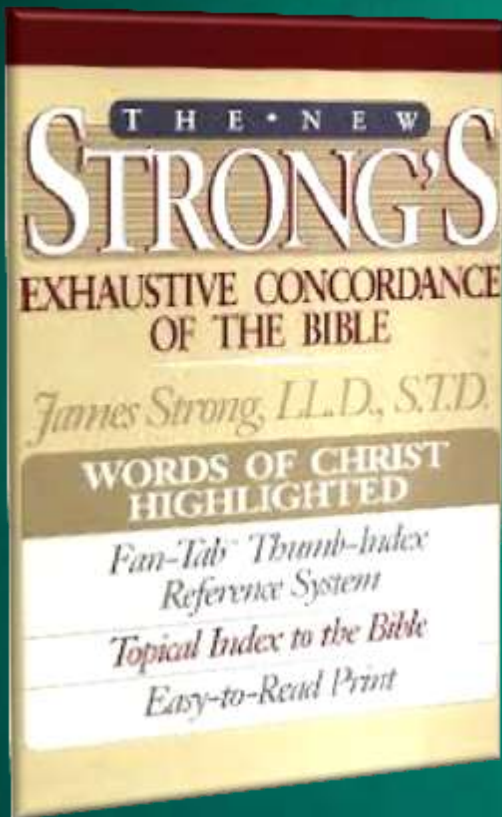

# Things to Remember When Using Computer Study Tools

This small exercise has demonstrated there can be discrepancies between different Bible study tools. If so, ask questions!

1. Does the discrepancy affect the overall outcome of the study?  
(In this case it didn't.)
2. Be watchful for other types of discrepancies that may affect the final outcome.

*What about italicized words?*

*Italicized words in the KJV have been added. All words should be examined for content & context accuracy.*

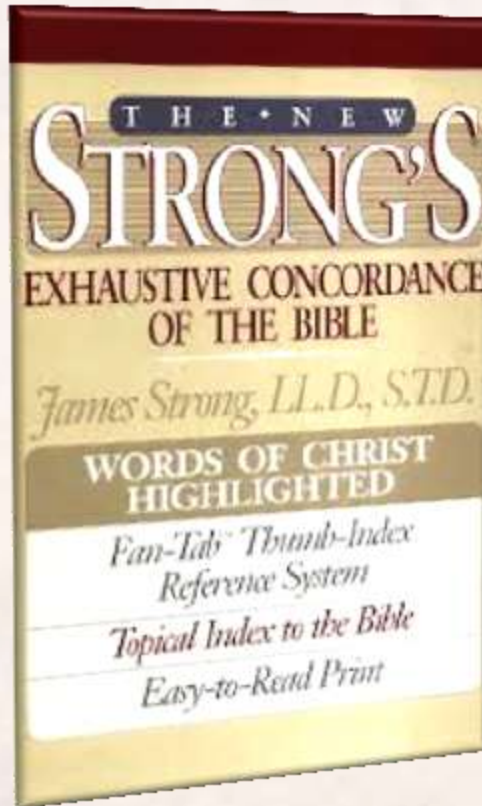

*What about Strong's?*

# Strong's Italicized Words

Not all Bible study tools show exactly what is printed in the original books.  
Strong's notes:

## SIGNS EMPLOYED

+ (*addition*) denotes a rendering in the KJV of one or more Hebrew words in connection with the one under consideration.  
× (*multiplication*) denotes a rendering in the KJV that results from an idiom peculiar to the Hebrew.  
\* (*degree*), appended to a Hebrew word, denotes a vowel-pointing corrected from that of

the text. (This mark is set in Hebrew Bibles over syllables in which the vowels of the margin have been inserted instead of those properly belonging to the text.)  
( ) (*parenthesis*), in the renderings from the KJV, denotes a word or syllable sometimes given in connection with the principal word to which it is annexed.

[ ] (*bracket*), in the rendering from the KJV, denotes the inclusion of an additional word in the Hebrew.

*Italics*, at the end of a rendering from the KJV, denote an explanation of the variations from the usual form.

*Italics*, at the end of a rendering from the KJV, denote an explanation of the variations from the usual form.

In other words: "italicized" words have been added.

- This study tool shows exactly the same as what is printed in Strong's original book.
- However, further study is still very necessary.

H2320

שָׁנָה

chôdesh

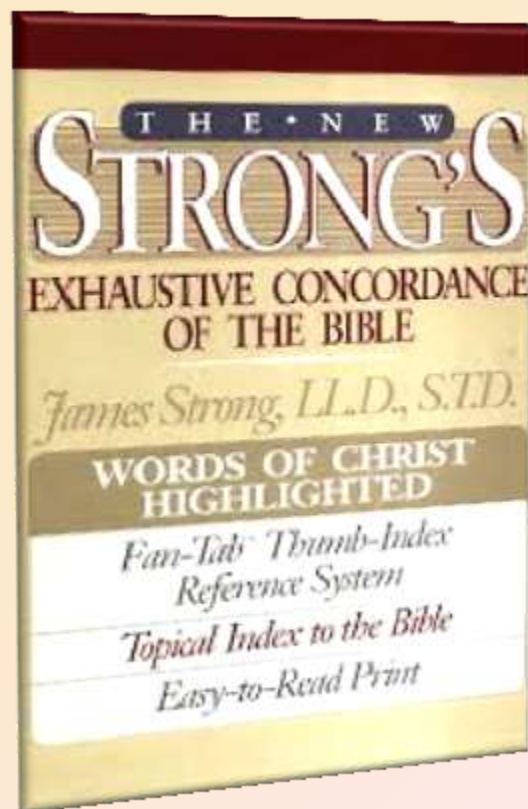

kho'-desh

From H2318; the **new** moon; by implication a **month**: - month (-ly), new moon.

**Total KJV occurrences: 279**

Let's compare  
E-Sword to  
Strong's book.

# H2320 <Chodesh> Strong's Book

Remember the note from Mr. Strong:

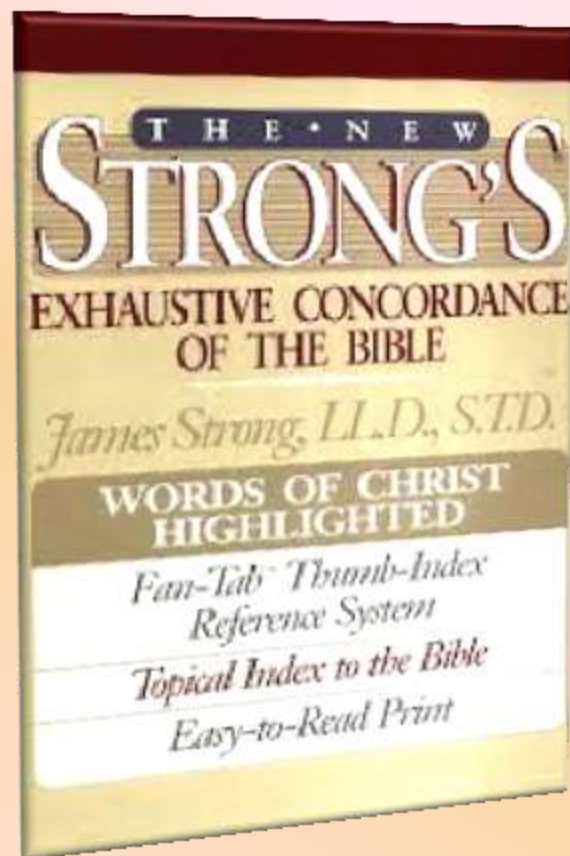

*Italics*, at the end of a rendering from the KJV, denote an explanation of the variations from the usual form.

For H2320, E-Sword & Strong's are identical.

2318. חָדַשׁ **châdash**, *khaw-dash'*; a prim. root; to be new; caus. to rebuild:—renew, repair.
2319. חָדָשׁ **châdash**, *khaw-dawsh'*; from 2318; new:—fresh, new thing.
2320. חֹדֶשׁ **chôdesh**, *kho'-desh*; from 2318; the **new** moon; by impl. a **month**:—month (-ly), new moon.

# H2320 <Chodesh> in the Book of Strong's

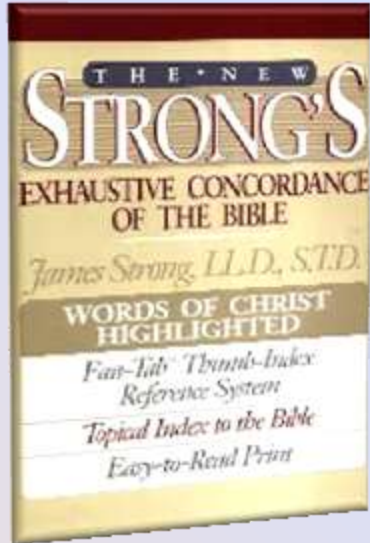

2318. חָדַשׁ **châdash**, *khaw-dash'*; a prim. root; to be new; caus. to rebuild:—renew, repair.  
2319. חָדָשׁ **châdash**, *khaw-dawsh'*; from 2318; new:—fresh, new thing.  
2320. חֹדֶשׁ **chôdesh**, *kho'-desh*; from 2318; the   moon; by impl. a   -month (-ly), new moon.

We have also learned that just because *italicized words* are removed from the definitions **does not necessarily mean** "what is left" provides a correct interpretation and definition.

The definition must align with **Moses and Torah**.  
Moses never uses H2320 <chodesh> in Torah to define any new moon as commencing the new festal month.

# What are the Hebrew Numbers for “New”?

In the Old Testament, there are 89 matches for “new” (PC Study Bible).  
36 of these matches are linked to:

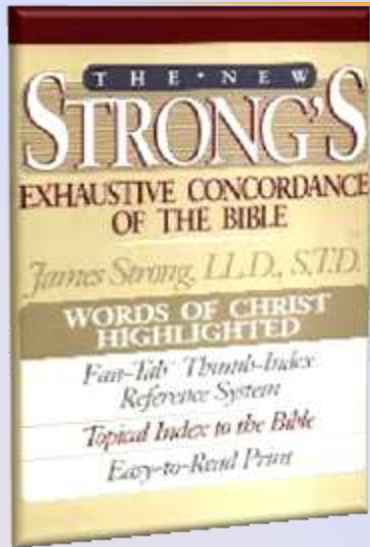

1. H1278: feminine of create
2. H2961: to be moist
3. H2323: new timber
4. H8492: expulsion of new wine
5. H1069: new fruit to burst forth
6. H6071: trodden juice

The other 53 matches are linked to H2319 to define a: “new” king, offering, house, wife, gods, wine, cords, ropes, sword, garment, court, song, instrument, new name, gate, spirit, new heavens and new earth.

“new” **H2319** chadash (khaw-dawsh'); from H2318; *new*:  
KJV - fresh, new thing.

# Are there any Hebrew Numbers for “New Moon”?

“new” H2319 chadash (khaw-dawsh'); from H2318; *new*: KJV - fresh, new thing.

“moon” [noun] H3394 yareach (yaw-ray'-akh); from the same as H3391; the moon: KJV - moon.

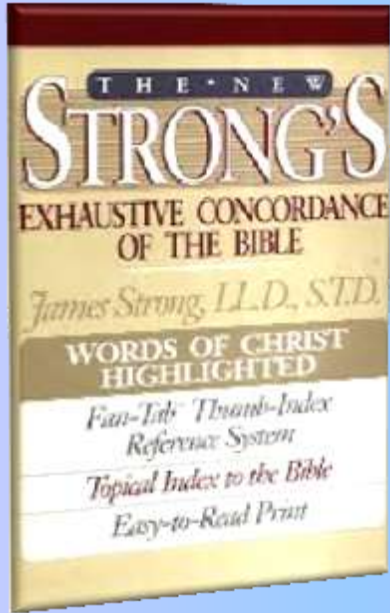

“moon” [verb] H3391 yerach (yeh'-rakh); from a unused root of uncertain signification; a *lunation*, i.e. *month*: KJV - month, moon.

If the “new moon” is in charge of the “new festal month” then we should find the appropriate Hebrew word numbers linked together in at least 2-3 Scripture references to designate the “new moon” as part of this worship statute.

New	Moon	# vs.

## Conclusion of the Matter

Study tools can assist us tremendously,  
but we must be sure to choose correct  
definitions according to content & context.  
AND, the conclusion must align with Moses and Torah.

EVERYONE WANTS TO KNOW THE

TRUTH  
The Moon! Oh, the Moon!

*Part 7: "Tampering with Yahuah's Calendar Keys and Definitions!"*

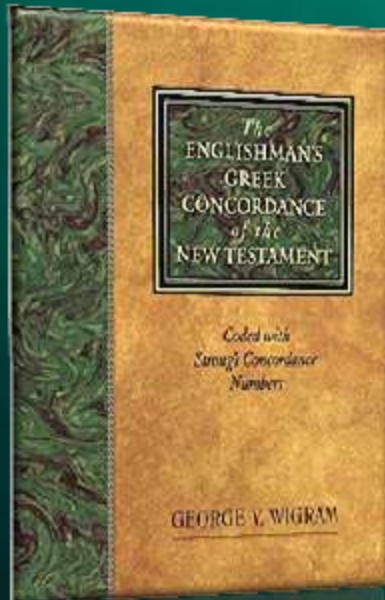

**Our Question:** Oh <chodesh> H2320!

Who tampered with your definition to read "moon" instead of "month"?

What have  
we learned  
so far about  
H2320/2318?

H2320 <chodesh>  
(the noun) and  
H2318 <chadash>  
(the verb) have  
nothing to do with  
“new moon months”  
according to the  
Laws of Moses.

hey, mr. graduate, last time  
we finished the teaching on  
all 20 verses that have  
bundles of moons, feasts &  
Sabbaths in non-Torah books.

yes, I understand from many  
that now they know these verses  
do not support a "moon month"  
according to the Laws of Moses.

so, somebody  
really has removed  
very important  
calendar keys!  
today we are going  
to find out who some  
of those people were!  
let's start with a review.

# Moon Hebrew Word #s & Grammar

55

R E V I E W	HEBREW #	PART OF SPEECH
	1. <b>H3394</b> = 26 listings     <yareach>	NOUN – LITERAL MOON
	2. <b>H3391</b> = 2 listings     <yerach>	VERB – LUNATION CYCLE
	3. <b>H3842</b> = 3 listings     <lebanah>	ADJECTIVE – COLOR
	4. <b>H7720</b> = 1 listing     <saharon>	SIMILE – COMPARISON
	5. <b>H2320</b> = 20 listings     <chodesh>	NOUN/VERB – REPETITION
	Total of <b>52</b> references.	QUESTION: ARE THERE REALLY 2 VERBS & 2 NOUNS FOR ONE “MOON”?

# Comparing the Listings

# STRONG'S	# ENGLISHMAN'S
1. <b>H3394</b> = 26 listings    <yareach>	Noun – 26 exact matches
2. <b>H3391</b> = 2 listings    <yerach>	Verb – 13 matches
3. <b>H3842</b> = 3 listings    <lebanah>	Adj. – 3 exact matches
4. <b>H7720</b> = 1 listing    <saharon>	Simile – 3 matches
5. <b>H2320</b> = 20 listings    <chodesh>	Noun ~ 283 / 279 / 276
Total of <b>52</b> references.	QUESTION: WHY ARE THERE 263 <u>EXTRA</u> LISTINGS FOR H2320 ?

# Moses to Nehemiah

The last teaching examined the 20 “new moon” non-Torah verses.

King Saul  
Jonathan/David

King David

King Solomon

Elisha

Amos

Hosea

Isaiah

King Hezekiah

Ezekiel

Nehemiah

Ezra

Zerubbabel

For 1000 years, not one of these great men of Yahuah made one single mistake. ALL of them followed Yahuah's Laws as given to Moses because there are no "new moon" worship statutes in Torah! Every leader beckoned the people to forsake pagan ways.

# Part 6 answered this Question:

## Are there really 2 verbs & 2 nouns for ONE “moon”?

59

R

### HEBREW #

### PART OF SPEECH

1. **H3394** = 26 listings <yareach>

NOUN – LITERAL MOON

2. **H3391** = 2 listings <yerach>

VERB – LUNATION CYCLE

3. **H3842** = 3 listings <lebanah>

ADJECTIVE – COLOR

4. **H7720** = 1 listing <saharon>

SIMILE – COMPARISON

5. **H2320** = 20 listings <chodesh>

NOUN/VERB – REPETITION

Total of **52** references.

**Answer: No!**

Neither H2320 chodesh /2318 chadash align with any moon month!

**Question:** Who really took away  
the Keys to Yahuah's Covenant Calendar?

# KEYS to THE KINGDOM

So far we have  
investigated the  
Hebrew Lexicon  
writers and their  
part in tampering.

*Matt 23:13 &  
Luke 12:56*

*Luke 8:17-18*

For nothing is  
secret that will  
not be revealed,  
nor anything  
hidden that  
will not be  
known and  
come to light ...  
For whoever  
has, to him  
more will be  
given ...

# **A thorough investigation must continue.**

**Who else may be responsible for taking away  
the Keys to Yahuah's Covenant Calendar?**

- 1. It wasn't only the Hebrew  
Lexicon writers!**
- 2. Today we will investigate  
the 1611 Translators!**

The next question will be  
“what happened”?

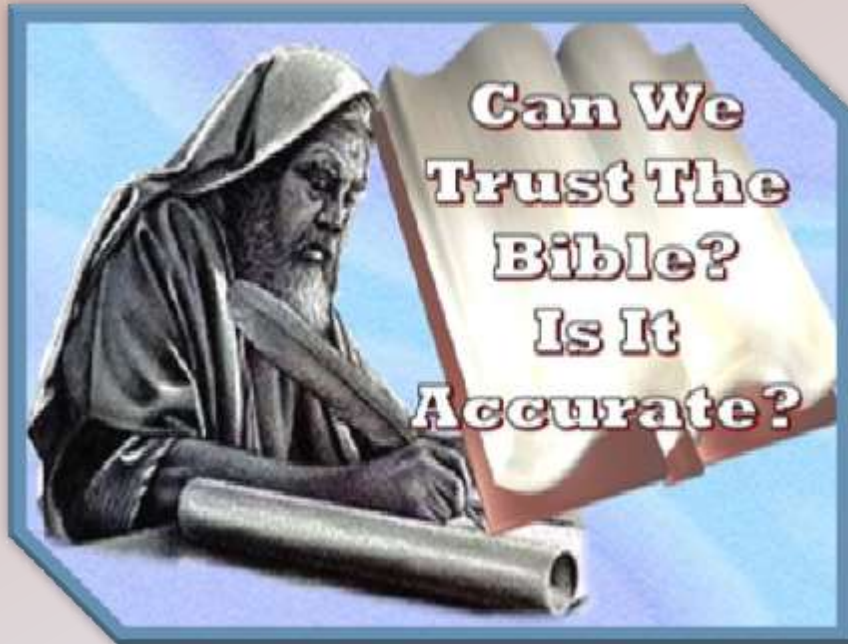

How did the “new moon”  
words find their way into  
20 non-Torah Scriptures  
through 52320 <chodesh>?

# Remembering the 1611 KJV Translators

63

Isa 28:10

- The 1611 KJV was completed less than 100 years after Luther.
- **The translators did their best.**
- It's likely they were highly influenced by traditional teachings during their time.
- Was the **new moon month** one of those traditional teachings?

For precept must be upon precept, precept upon precept;  
line upon line, line upon line; here a little, and there a little.

There are some things that could have happened with the 1611 KJV translation to cause such a problem in only 7% of the Scriptures to establish the “**new moon**” over the “**new <chodesh> month**”!

Two possibilities must be considered.

1. The translators ignorantly made a mistake by following the Jewish traditions of their “new moon.”
2. The translators deliberately erred causing allegiance and sacred regard to be given to the moon month in place of **Yahuah's festal month start.**

# Mapping the Topics for H2320 <chodesh>

## 1. H2320 Definition

H2320 <chodesh> must come into alignment with Moses & Torah as Yahuah's "new [chodesh] month" not Yahuah's "new moon" or man's agenda.

## 2. Lexicon Challenges

Examination of Theologians of Hebrew Lexicon Study Tools: Strong's; Brown-Driver-Briggs; Gesenius; Theological Wordbook of the Old Testament (TWOT).

## 3. Counsel from Moses

From 1450 BC [2550 years after creation]: The Torah Calendar Instructions were for all Kings, Prophets and Leaders, up to and including Yahuah's people today.

## 4. New Moon Verses

All 20 "new moon" verses are NON-Torah references mis-translating <chodesh> as "moon" instead of "month." Not one aligned with Torah instructions!

# Mapping the Topics for H2320 <chodesh>

## 5. 1611 KJV Translators

1611 KJV Translators and their treatment of H2320 <chodesh> in Isaiah 47:13. Did they make a mistake or not?

## 6. Bible Translations

Examination of 10 different translations (of many) that clearly give the true context for Isaiah 47:13.

## 7. Bible Commentators

Examination of 3 Bible Commentators for their insight into the proper meaning and history of Isaiah 47:13.

## 8-11. Ancient History

In Part #8 for the next Moon Study, the Old Testament history of Yahuah's people will be thoroughly examined.

Does it seems strange that ...

Only 7% of the **KEY verses**  
for worship statutes would be  
incorrectly translated as “moon(s)”  
when the proper translated term for  
H2320 <chodesh> can only be “**month(s)**”?

A full moon is visible in the dark sky, positioned directly above a dirt road that stretches from the foreground into the distance. The road is flanked by green grass and some low-lying vegetation. The overall scene is a landscape photograph used as a background for the text.

The prophet Isaiah in  
Chapter 47:13 talks  
about the “monthly  
prognosticators.”

This is a verse using “qualifiers.”  
The context of the verse “qualifies”  
the meaning of monthly prognosticators.

**Let's examine that term!**

# Isaiah 47:13 KJV

[~712 BC]

Thou [Babylon] art wearied in the multitude of thy counsels.

Let now the astrologers, the stargazers, the

monthly [H2320] prognosticators [H3045],

stand up, and save thee

from these things that shall come upon thee.

**Monthly** here [as H2320] is translated correctly!

# Isaiah 47:13 KJV

The meaning of  
monthly [H2320]  
prognosticators [H3045]:

Those that ascertain  
by “seeing.”

Or:

Every month the  
astrologers are gazing  
at the heavenly bodies.

Is the KJV  
the best  
translation?

# Other Translations of Isaiah 47:13

71

## #1 English Standard Version

You [Babylon] are wearied with your many counsels; let them stand forth and save you, those who divide the heavens, who gaze at the stars, **who at the NEW MOONS make known what shall come upon you.**

## #2 New American Standard

... Those who prophesy by the stars,  
**Those who predict by the NEW MOONS ...**

## #3 International Standard Version

... those who conjure the heavens and gaze at the stars,  
**predicting at the NEW MOONS ...**

# Other Translations of Isaiah 47:13 (con't)

72

## #4 Jubilee Bible 2000

... Let now those that contemplate the heavens,  
those that speculate regarding the stars,  
**those that teach the courses of the MOON ...**

## #5 Darby Bible Translation

... Let now the interpreters of the heavens,  
the observers of the stars,  
**who predict according to the NEW MOONS ...**

# Other Translations of Isaiah 47:13 (con't)

73

## #6 New World Translation

... the lookers at the stars, **those giving out knowledge at the NEW MOONS** ...

## #7 Revised Standard Version

... who gaze at the stars, **who at the NEW MOONS predict what shall befall you.**

## #8 Common English Bible

... let the astrologers stand up and save you, those who gaze at the stars, **and predict what will happen to you at each NEW MOON.**

# Other Translations of Isaiah 47:13

74

## #9 Lexham English Bible

You struggle with your many consultations; let them stand, now, and save you - those who see the stars, divide *the celestial sphere*, **who inform by NEW MOONS - from those things that are coming upon you.**

## #10 New Century Version

... those who tell the future **by looking at the stars and the NEW MOONS.**

# Isaiah 47:13 KJV

Let's check out what  
other Bible  
Commentators have  
to say about these  
monthly  
prognosticators!

We'll examine:

1. Barnes' Notes
2. Jamieson, Fausset & Brown
3. Keil & Delitzsch

# Isaiah 47:13 ~ Barnes' Notes

The thing referred to in the passage before us, and which **was practiced in Babylon**, was, probably, that of forecasting future events, or telling what would occur by the observation of the positions of the heavenly bodies.

[**The star-gazers**] Those who endeavor to tell what will occur by the contemplation of the relative positions of the stars.

[**The monthly prognosticators**] '**That give knowledge concerning the months.**' That is, at the commencement of the months they give knowledge of what events might be expected to occur during the month; **perhaps from the dip of the moon, or its riding high or low, etc.** ... **This whole passage would have been more literally and better translated by preserving the order of the Hebrew.**

'Let them stand up now and save thee, who are astrologers; who gaze upon the stars, **and who make known at the new moons what things will come upon thee.**'

# Isaiah 47:13 ~ Jamieson, Fausset & Brown

Let ... the **monthly prognosticators** ... save thee from (these things) that shall come upon thee - those who at each new moon profess to tell thereby what is about to happen.

**Maurer joins, not as the English version,** 'Let them that give knowledge **concerning the months** (margin) save thee from those things that shall come upon thee; but, 'They that at new moons make known part of the things that shall come upon thee, let them (also) save thee (from them).' If they can foretell calamities, they ought also to be able to save from them; because both are the work of God.

# Isaiah 47:13 ~ Keil & Delitzsch

78

... to look with pleasure or with interest at anything; hence Luther has rendered it correctly, die Sternkucker (Eng. ver. star-gazers).

They [Babylon's star-gazers] are described still further as those who make known with every new moon, ... things which, ... is used in a partitive sense: out of the great mass of events they select the most important, and prepare a calendar or almanac ... for the state every month.

A 3D white figure, resembling a stylized person, is holding a large rectangular sign. The figure is positioned on the left side of the frame, facing right. The sign is white with a thin gold border and contains text. In the top right corner, there is a dark brown rectangular box with gold text.

## Summary for Isa 47:13

1. There are many other Bible translations that translate Isa 47:13 according to the ways of Babylon – **that of star-gazers and those that watch for every new moon – a monthly event.**

A 3D white figure, resembling a stylized person, is holding a large rectangular sign. The figure is positioned on the left side of the frame, with its right arm raised to hold the top of the sign and its left arm supporting the bottom. The sign is white with a thin black border and contains text. In the top right corner of the image, there is a dark brown rectangular box with yellow text.

## Summary for Isa 47:13

2. There are several other Bible Commentaries that also interpret **Isaiah 47:13** according to what was really happening in Babylon.

A 3D white figure, resembling a stylized person, is holding a large rectangular sign. The figure is positioned on the left side of the frame, facing right. The sign is white with a thin black border and contains text. In the top right corner, there is a dark brown rectangular box with yellow text.

## Summary for Isa 47:13

3. Because the translators for the KJV used the term “**monthly prognosticators,**” rather than “**those who predict by the new moons,**” did they actually remove important context from this verse?

hey, mr. graduate, that is a  
good question. why didn't  
the translators use the word  
"moon" for H2320 <chodesh>  
this time like all the  
other times?

remember, the  
action definition  
for the H2320 chodesh  
month is still a  
rebuilding, renewing  
& repetitive occurrence.  
these words also describe  
different moon phases  
observed by pagan Babylon  
for horoscope purposes.  
The context was not altered.

well, around 712 BC Yahuah's  
festal month and the lunar  
month still were both 30 days  
in length.

mr. graduate, could I ask  
you something else? I hear  
there are some secular  
historical quotes that  
verify some of these  
traditional discrepancies!

yes, there are more and more  
historical quotes coming to the  
forefront all the time. we  
should examine a few of these.

the changes of  
Yahuah's  
day-start and  
month-start are  
closely linked  
together. as time moves  
forward, i believe we will  
see more & more of these quotes.

# Quote #1 linking to Isaiah 47:13

Morris N. Kertzer, *What is a Jew*, p. 108

- "When the Jews returned to Palestine after their Babylonian exile (516 BCE) they brought back with them the Babylonian astronomy and way of reckoning time ..."

# Quote #2 linking to Isaiah 47:13

New Catholic Encyclopedia – Vol. 11, p. 1068

- "... especially **after the Babylonian exile** a number of significant and enduring changes occurred in the Israelite calendar showing that the Jews gradually adopted the Babylonian calendar of the time ... the seven day week persisted despite its failure to divide evenly either the month or the year. The day however, was counted from evening to evening, after the Babylonian fashion ..."

mr graduate, if the Jews  
adopted the sunset day from  
Babylon, do you think they  
also adopted Babylon's month  
start according to the moon?

it certainly sounds logical  
doesn't it? we should consider  
another quote on this.

in this next quote,  
watch to see which  
type of calendar  
gave rise to the  
new viewpoint of the  
sunset day, which no  
doubt affected the  
crescent moon month start.

# Quote #3 linking to Isaiah 47:13

Encyclopedic Dictionary of the Bible, p. 497

- [besides the conception] "... the twenty-four hour day begins at sunrise ... there arose another idea of the twenty-four hour day, according to which this daily period began at sunset. It was no doubt the lunar calendar of the Jews which gave rise to this viewpoint ..."

A 3D white figure, resembling a stylized person, is holding a large rectangular sign. The figure is positioned on the left side of the frame, facing right. The sign is white with a thin gold border and contains text. In the top right corner of the slide, there is a dark brown rectangular box with gold text.

## Summary for Isa 47:13

4. Remember, this ONE verse wasn't tampered with at all even though in this case H2320 could have been **incorrectly translated** as **“new moon”** (as the other 20 verses were) ...

**and ...**

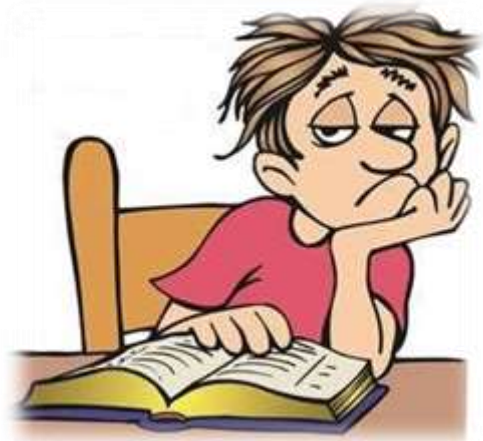

## Conclusion for Isa 47:13

**A mis-translation using “moon” would still have been in alignment with the context and the truth of the pagan cultures and their worship practices! Yet, this verse was left untouched!**

**Why?**

## Why? That's the Point!

There are 20 key "**feast and festival**" verses in the Old Testament that have been manipulated and tampered with **to lead one to believe** the Feast Months really do **begin** with the "new moon."

**We must recognize this glaring counterfeit.  
Non-Torah Verses must be in alignment with Torah Truths.**

# Alignment of Psalm 81:3 & Numbers 10:10

91

R  
E  
V  
I  
E  
W

## Scripture Facts

[1450 BC] **Num 10:10** ... **in your solemn** [feast] **days**, and **in the beginnings of your months** [H2320], **ye shall blow with the trumpets** ...

[1030 BC] **Ps 81:3** **Blow up the trumpet** in the **new moon month** [H2320], in the time appointed, on our solemn feast day.

## Comparison

- The Book of Numbers dates at least 420 years before Psalms.
- **Numbers is Torah; Psalms is not.**
- **King David taught according to Torah.**
- **Psalm 81:3** must come into alignment with **Numbers 10:10.**
- The mis-translation of **H2320 chodesh** in Psalm 81 [KJV] (seen as **“new moon”**) should be translated as **“new month.”**

**Remember this question: Has there been a deliberate attempt by the 1611 translators to save the new moon?**

# Comment:

Because the exiled Jews were indoctrinated with the Babylonian calendar beginning the day with sunset and the month with the crescent moon, one can see how these two concepts go together.

1. Once the sun sets - the new day begins;
2. Once the crescent moon is sighted, the new month begins the next day!

Despite what **Yahuah's** Covenant Calendar teaches, this new pagan calendar was eventually declared as a Torah truth.

# There are NO New Moons for Yahuah's Festal Months!

This error has been accepted as a "Torah truth" likely because most people examined only these 20 verses.

The majority of these verses are set in the context of Sabbaths, new moons, along with Feasts and Festivals. Problem: they are ALL non-Torah verses!

As mentioned before 20 verses represent only 7% of the 283 [PC Study Bible] references that must be searched out. (Note: H2320 references may differ with study tools. E-Sword = 279; Blue Letter Bible = 276.)

# These things are certain:

1. The 1611 Translators absolutely mis-translated the 20 non-Torah verses using "new moons" instead of "new months."
2. Isa 47:13 is the "red flag" verse showing the Translators could have mis-translated this verse without altering the context. However, in this case they left H2320 as "monthly" rather than specifying the moon context.

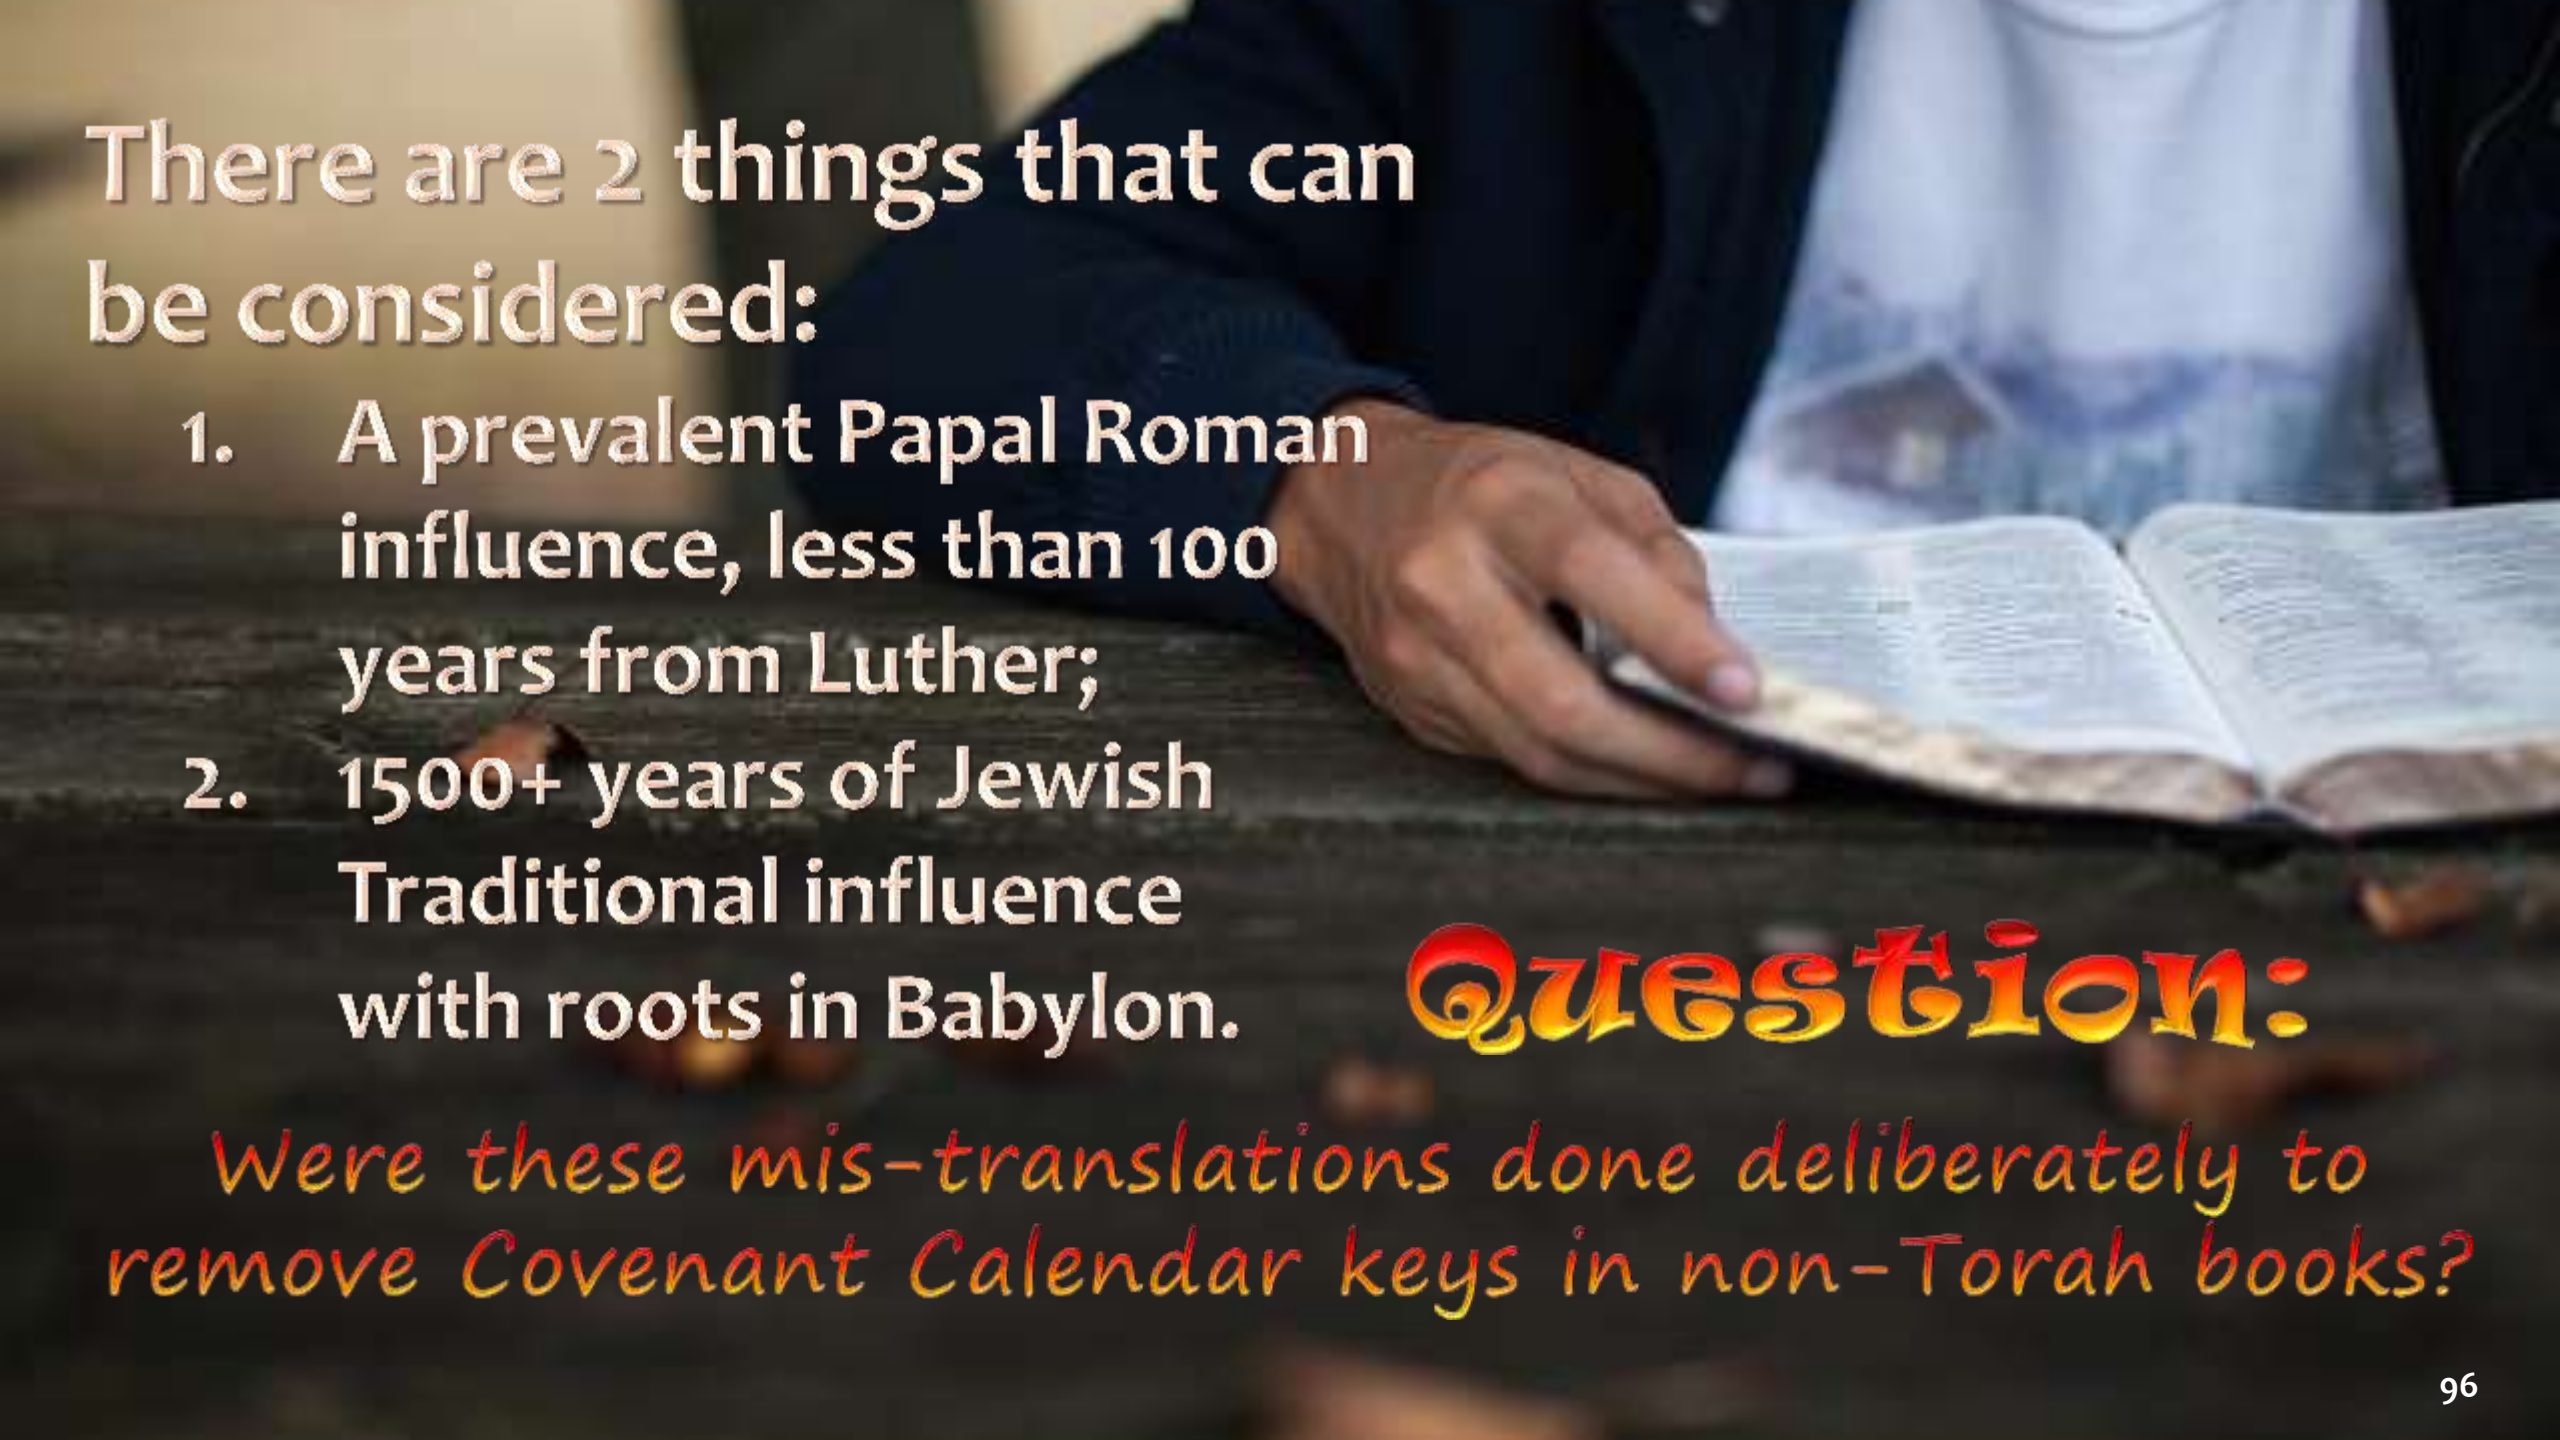

# Audience Participation

**What are your thoughts on why the Translators of 1611 would succumb to such a final decision?**

There are 2 things that can be considered:

1. A prevalent Papal Roman influence, less than 100 years from Luther;
2. 1500+ years of Jewish Traditional influence with roots in Babylon.

**Question:**

*Were these mis-translations done deliberately to remove Covenant Calendar keys in non-Torah books?*

## Something else to consider:

- Torah has 86 matches for H2320 all noted as “month.”
- Not ONE Torah verse using H2320 <chodesh> was tampered with to read “moon” rather than “month”!

*Amazing!*

Did Yahuah hold His hand over Torah to preserve His calendar keys?

# Question:

If the translators would have translated **H2320** as "**new month**" instead of "**new moon**" for the 20 verses under examination, would that have made a difference for understanding the commencement of Yahuah's festal month today?

There should be **NO** question about this!

now we know, right  
mr. graduate?!

yes, we now know a little  
more of what happened for  
Yahuah's Covenant Calendar  
Keys to be lost.

However:  
the Lexicon writers  
and 1611 translators  
are not the only ones  
that have tampered  
with the  
Covenant Calendar Keys!  
There's more to this story.

# We must search for the answer to our original question!

Who else may be  
responsible for  
taking away the  
Keys to Yahuah's  
Covenant  
Calendar?

1. Israel?

2. Galilee?

3. Samaria?

4. Judah?

5. Others?

# What Next?

Part 8:

The Moon! Oh, the Moon!

“My People Have Forsaken  
Me for the Moonth?”

(on Nov 2/18)

## The End

To find out who else  
is guilty and what  
happened to Yahuah's  
Covenant Calendar  
Keys ...

If you need assistance  
with this information,  
please send your  
questions to  
Charlene Fortsch or  
Timothy Astleford:
