An illustration of a man with dark hair, wearing a light blue button-down shirt and black pants, holding a large white sign with a gold border. The sign contains the text 'It will be worth it!' in a stylized, colorful font. He is standing in front of a large, light green circular backdrop. To his left is a wooden signpost with two brown arrow-shaped signs pointing left, each containing a white question mark. A small green plant is at the base of the signpost. A large purple speech bubble points from the man towards the right side of the slide.

מ the thirteenth letter is a fervile and a confo-
nant; the found of this letter, as well as form
of it in the Samaritan alphabet, seems to have
been taken from the rolling of the sea, and re-
fembles the undulation thereof. מֵיִם signifies wa-
ter, in Ægyptian *mw* whence the Greek *μ* in Ty-
rian מֵיִא as well as Greek *μα* is mother, as
faith *Eustatius*, water being the mother of all
productions. This letter is a liquid labial; as a
numeral מ stands for 40, but the final ׀ 500.
As a fervile מ (1.) prefixed, from טָן or מָנָה
to distribute, is the particle *from, with, by*; (2.)
forms the participle of *Epoil, Epol*, and with ת
Etpol - whence (3.) it forms nouns signifying
the instrument, means, or place of action, as מָגֵן a
shield; (4.) מֵן an infinitive, מִפֶּקֶד *from visiting*;
(5.) it also expresses a simple degree of comparison
as מֵן טוֹבָה חֲכָמָה מִפְּנִינִים, *Prov. 8. 11. wisdom is*

Is there a possibility of the MEM FREQUENCY being built within the Qodesh Convocations that return each and every year in exact SHANEH timing?

Equinox
TESHUVA!

Tequfot, 7th day Shabbat, Passover, Unleavened Bread, Wave Sheaf, Pentecost, Trumpets, Tabernacles, Jubilees; are these **Qodesh Identities** - returning in a cyclical fashion? Is there a certain - **FREQUENCY** - to these **Mo-edim** (Feasts) **returning Shaneh** (year), **after Shaneh** (year)?

What of – TEQUFAH? (circuit)

The **Tequfah** (circuit) event is a regular occurrence.

The **Tequfah** is the **assigned “pathway” of the sun, and it traces out with extreme precision, each **Shaneh** (year).**

The sun maintains its existence by traveling specifically through the constellations of the Mazzaroth, within the heavenly realm.

It is a **REPEATED CYCLE!** Might it then be declared – **Tequfah** has a **Shaneh** (yearly) **FREQUENCY?**

A H3974 “Maurt” LIGHT frequency?

A **MEM**

undulation (frequency)?

What is a – TESHUVA? (a turning)

The **Teshuva** (a turning); and when this verb is applied to the celestial bodies, it clarifies the events of the Equinoxes. **NOT EQUILUX!**

Equilux is a very different identity & concept altogether!

A Teshuva (turning) when applied to **TIME**, references **TWO** specific appointments within the **Shaneh** (year) when a **STRAIGHT LINE SHADOW SIGN** can be observed on the ground! (See James 1:17.)

Incidentally, it was this very **SHADOW** that Hezekiah requested of Yahuah, to return back 10 degrees on the sun dial.

This 10 degree reversal, in turn, altered the length of the year.

Two – **Teshuva** per **Shaneh** (year) reveals a most specific **FREQUENCY!**

Equinoxes!

What of – FREQUENCIES?

The **Tequfah** (circuit) event is a regular occurrence. The **Tequfah CIRCUIT REPEATS** and has a **Shaneh** (yearly) **FREQUENCY!**

With this in mind, **are we** able to find a **MEM** (frequency indicator) letter in application to this event?

What about Teshuva?

Consider this verse that directly references the circuit of the sun.

Ecc 1:5 The sun H8121 also ariseth, H2224 and the **sun** H8121 goeth down, H935 and **hasteth** H7602 to his place H4725 where he arose. H2224

Ecc 1:5

Has Tequfah a – FREQUENCY?

The sun also “ariseth” ... (H2224).
The Hebrew word for “arise” is zarach. One of the meanings is: to break forth in distribution of rays.

... and the sun goeth down ...
H935 – Bo. The **traditional**
meaning is for the sun
to “go down!”

What IF the sun **NEVER** - “goes down?”

What **IF** the sun simply (H935 – Bo) – go, or enters in (to)
another locale beyond our vision, out of our immediate sight,
allowing the darkness to overtake the light?

Gen 1:5 –
Ereb!

Has Tequfah a - **FREQUENCY COMMISSION?**

Ecc 1:5

... **AND HASTETH** ...

H7602 (to the place where it arose.)

We read in Psa 19:4, that the sun was **ASSIGNED** an **Ahel**,
“a tabernacle,” a special
place of dwelling!

Does the **SUN** ever **VACATE** its **assigned TEQUFAH** (circuit)?

What is the **COMMISSION?**
Why does the sun **purposely** “**hasten**”
BACK TO THE PLACE IT AROSE?

Ecc 1:5

Shall we look at – location – first?

H4725, - place of him.” Note the double **Mem** letters –
(place of origin for frequency distribution.)

A frequency of the sun?

In terms of TIMING: the sun has two basic frequencies.

#1. There is a 24 hour frequency where it **RESTARTS** every Dawn. Dawn (morning) is H1242 Boqer. H1242 is derived from - H1239.

בָּקַר not used in Kal prop. i. q. Arab. بَقَرَ *to cleave, to open*, kindred to the root בָּכַר. The notion of cleaving and opening in this root is applied—
(1) to ploughing (compare חָרַשׁ, פָּתַח, נָדַד); whence בָּקַר *armentum*, as if *aramentum*, oxen.

(2) to the breaking forth and arising of light; see בָּקַע Kal and Niphal No. 3.

(3) to the sense of asking, inquiring (Syr. حَفَّ: *to inquire, to investigate*, حَفَلَ and حَفَلْ inquiry, searching out), also that of *to look at, to inspect*. So in—

PIEL בָּקַר.—(1) *to inspect diligently, to look at anything*; followed by לָ Lev. 13:36, בִּינֵה (compare בִּי No. 1), Lev. 27:33. Followed by בָּ to look at with pleasure (compare בָּ No. 4, a), Ps. 27:4.

(2) to look after, to take care of, with an acc. Eze. 34:11, 12.

Descriptive Perspectives.

If you are describing a very important covenant meal, would your visual description appear like the picture(s)?

& THE TEQUFAH? WHY “A PLATE”?

Is the red CIRCUIT a “straight line, a measuring tape, stamped out like a plate?”

Does it also provide coverage until the ENDS of the earth?

Normally we hear of *Teshuva* in context of relationship with **Yahusha Ha Mashiach**. Sinners may **stop** their futile life in this world, **TURN** 180 degrees, and begin a purposeful life with **Yahusha**.

They have intentionally changed the mode of operation in their lives and have chosen a **PURPOSEFUL** option.

The flux in their life has **STOPPED**, and another - **SEPARATE** - identity has **BEGUN!** *Hallelu-Yah!*
However, we are looking for the context of specific TIME!
Let's get Scriptural -

Yeshuva's intentional PURPOSE! #1

2 Sam 11:1 And it came to be at the *turn of the year* [teshuva], at the time sovereigns go out *to battle*, that Dawid sent Yo'ab and his servants with him, and all Yisra'el, and they destroyed the children of Ammon and besieged Rabbah. But Dawid remained at Yerushalayim.

1 Ki 20:22 And the prophet came to the sovereign of Yisra'el and said to him, “Go, strengthen yourself. And know and see what you should do, for at *the turn of the year* [teshuva] the sovereign of Aram is coming up against you.”

1 Ki 20:26 And it came to be, at the *turn of the year* [teshuva], that Ben-Hadad mustered the Arameans and went up to Aphēq to fight against Yisra'el.

Yeshuva's intentional purpose! #2

1 Ch 20:1 And it came to be at the turn of the year [teshuva], at the time sovereigns go out to battle, that Yo'ab led out the power of the army and destroyed the land of the children of Ammon, and came and besieged Rabbah. But Dawid remained at Yerushalayim. And Yo'ab smote Rabbah and overthrew it.

2 Ch 36:10 And at the turn of the year [teshuva] Sovereign Nebukadnettsar sent and brought him to Babel, with the valuable utensils from the House of יהוה, and made Tsidqiyahu, Yehoyaqim's brother, sovereign over Yehudah and Yerushalayim.

Yeshova up close!

Please notice that in each of these verses the word **Shaneh** is present. This is a direct connection to **Gen 1:14**, the 4th cycle of creation.

Shaneh indicates through Hebrew definition that this type of year must be of a **DUPLICATION**. A "*seed within a seed according to its own kind*" identity. This means the year identity must be a perfect match from the year previous to it.

There must be a "**governing cut off point**" which has the **authority** to **RE**-produce the 360 cycle **Worship Year** in sequentially exact segments. This **sequence** began at **Genesis 1:1**, the very first cycle of creation, **and continues - today!**

The **Teshuva** (turning point) of the celestial identities, provides a STRAIGHT LINE SHADOW (James 1:17), that determines the **final cycle** (day) of a **Shaneh** (year). The very next **Dawn**, is the first cycle of the new year. From this New Year Cycle, being #1, the count to Abib 14, Passover, begins. The **MO-EDIM COUNT** starts with strict accordance to the event occurrence of the **Teshuva Shadow**. This specific **Teshuva Shadow** is only produced by the **commission of the sun, being commanded to return** to its designated starting point within the Mazzaroth. This **commission** is accomplished within **Yahuah's** peripheries of the **Tequfah** (circuit) as outlined in Ecc 1:5.

Questions:

What is the base
IMPORTANCE of the
Mo-edim? - LIFE?
Why is the sun described
as “**gasping for air**” (**LIFE**)
to get back to the finish
point of its circuit?

Is - **Teshuva** that which provides **LIFE**?

The **Teshuva** (turning point) of the celestial identities, provides a STRAIGHT LINE SHADOW (James 1:17). Is it possible that **Yahuah** allotted this **SHADOW** phenomena as a **SIGN** (Gen 1:14) emanating from the **TWO GREAT LIGHTS** recorded on **cycle #4** of the Creation week?

What are the entities that formulate this **SIGN**? 1> **Sun** 2> **Light**
3> **Mazzaroth** & 4> **Earth**.

Gen
1:14

Without even one of these identities, the cyclical **Way** (Mo-edim - **LIFE**), would not exist.

The **Mazzaroth** identifies the **TIMING LOCATION**.

The **sun** **CONDUCTS** the correct action across the heavens.

The sun **Light** dictates the appropriate **SIGN/SIGNAL**.

The earth receives this Covenant, marked as a Shadow degree of **Light!**

“You have removed **THE KEY** to understanding ...”

Luke 11:52

When a purposeful DISREGARD for even one of these identities occurs, the cyclical **Way** (Mo-edim - **LIFE**), will cease to be understood on earth.

The Mazzaroth identifies and establishes the **TIMING LOCATION** Prophetic markers, past, present, AND FUTURE.

The sun CONDUCTS the correct DEFINING action DELINEATING a **Straight Line Path** across the heavens, 2 times a year.

Gen
1:14

The sun **Light** dictates the appropriate **SIGN/SIGNAL** by forming a **Shadow** via a staff in the ground. This staff enables **The Shadow** which is to be MARKED & DETERMINED by man.

Recall -
Serpent

The earth receives this **Covenant**, in marked form as a **Shadow**, the degree of **Light** commissioned by Yah, in Gen 1:14-18!

Appointment Accuracy - Timing - is PARAMOUNT!

The moon has its own ordinances of which

The sun in **Ecc 1:5** is recorded in English as ***hurrying*** back to the place where it arose.

The Hebrew definitions describe an intensity as deep as **GASPING FOR AIR!**

When one swims under water for a time, and returns to the surface, there is one necessity.

Your lungs are **CRYING FOR AIR!** The top priority at that moment is to **draw in air,**

namely – **OXYGEN**, for survival, → **FOR LIFE!**

Ps 90:12

What is it that the sun's course of action - **Tequfah - is intensely preserving? Is it encompassed within the **Covenant**? Could it be **THE COUNT** which the sun is bent on preserving?**

The **Teshuva Shadow Sign**, as mentioned, signals the impending **TIME** to begin **THE COUNT** to Abib 14 (Passover) at the next **Light of Dawn.**

Passover first involved death. Passover was **timed** in a **Type** format by the **Shadow** of **Teshuva**. Passover was **FULFILLED IN THE ANTITYPE ACCORDING TO THE SHADOW OF TESHUVA! Yahusha exclaimed – It has been accomplished!** The Teshuva also timed that Wave Sheaf Presentation of First-Fruit, by - **Yahusha Ha Mashiach's after His resurrection!!**
Without that **Shadow of Teshuva ... ?!?** Let's view – **The Way!**

The **Teshuva Shadow Sign**, as mentioned, signals the impending **TIME** to begin **THE COUNT** to Abib 14 (Passover) at the next Light of Dawn.

Passover first involved death.

What is - “Way” (Derek)?

Assessment

As we view the different contexts in how this word “derek” is used in the Scriptures, it becomes very apparent that “derek” can be used to directly reference the MelkiTzedek Covenant which contains the cyclical Mo-edim of Yahuah. Cyclical, in that they return to the starting point (Ecc 1:5) each Shaneh (year, Gen 1:14) and start over once again to repeat (seed within a seed – Gen 1:11, 12), the Plan of Salvation encapsulated within the Festal Pattern methodology of Yah!

What about the GRAPES? Should we - “DEREK” - TREAD & CRUSH OUT the JUICE OF LIFE FROM THE TORAH? Isn’t crushing the grapes a form of dissecting, to reveal and harvest that which is on the INSIDE?
 What substance is filling YOUR CISTERN?

As per specific context, “Derek” can be observed as directly referencing the cyclical Festal Schedule which revolves/returns - every year.

How does this relate to the sun being in a **HURRY** to return back to its starting point? [Ecc 1:5?]

Let's quickly step out of the line and examine Proverbs 8:22 in another light.

Prov 8:22 ~ could it be - the **Way** existed before the creation of this earth!

Yahweh Himself acquired me as the beginning of His way; Preceding His deeds of yore.

Lev 23:2 Speake vnto the children of Israel, and say vnto the: The feastes of [Yahuah] which ye shall call holy conuocations, euen these are **My feastes**.

Pro 8:22 “יהוה” possessed me, The beginning of His **WAY**, As the first of His works of old.”

If the system of Festal Mo-edim and the MelkiTzedek Order existed prior to the creation of this earth, is it possible this system **by design** was incorporated as **THE SEED** (Gen 1:11,12) “planted” onto this earth? The intentional “**DNA**” of Salvation?

How does – H1870 **Derek**, provide the **Pathway** to the **Tree of Lives?**
